coming years. The expansion of international relations makes the knowledge of foreign languages a critical need for today's professional. The student of foreign languages is not limited to teaching, translating or interpreting. There are careers in politics, diplomacy, commerce, business, agriculture, science, and research in which a thorough knowledge of foreign languages and cultures is crucial for success. The demand for multilingual personnel extends to all fields of human enterprise and will continue to grow in the coming years.

Study Abroad

It is required that all German Studies students participate in at least one regular semester of study abroad or internship (3-4 months minimum) in a German-speaking country. Please note that no more than 15 hours of transfer credit (from study abroad or other US Institutions which are not a part of UNC-Online) may be applied towards core courses in German Studies (core: required courses, departmental electives, FLG electives I and II, and advised electives I and II). FLG 499 Internship in Germany, Austria, or German-Speaking Switzerland is an internship course with up to 6 credits. For students who choose study abroad instead of an internship, FLG 499 Internship in Germany, Austria, or German-Speaking Switzerland serves as a placeholder for transfer credits from the study abroad semester.

Career Opportunities

The expansion of international relations makes the knowledge of foreign languages a critical need for today's professional. The student of foreign languages is not limited to teaching, translating or interpreting. There are careers in politics, diplomacy, commerce, business, agriculture, science, and research in which a thorough knowledge of foreign languages and cultures is crucial for success. The demand for multilingual personnel extends to all fields of human enterprise and will continue to grow in the coming years.

### Foreign Languages and Literatures (BA): German Studies International Economics Concentration

To see more about what you will learn in this program, visit the Learning Outcomes website [here](https://apps.oirp.ncsu.edu/pgas/)

All the general requirements for Bachelor of Arts degree must be met. Degree designations are B.A. in Foreign Languages and Literatures. Major concentrations in Arabic Language and Culture, Asian Language, French Language and Literatures, German Studies, Spanish Language and Literatures, and Foreign Language Education with a French, German, or Spanish option.

Outstanding students may become members of the Pi Delta Phi, French Honor Society, Sigma Delta Pi, National Hispanic Honor Society, or of Delta Phi Alpha, German Honor Society.

¹ A grade of C- or higher is required.

Study Abroad

It is required that all German Studies students participate in at least one regular semester of study abroad or internship (3-4 months minimum) in a German-speaking country. Please note that no more than 15 hours of transfer credit (from study abroad or other US Institutions which are not a part of UNC-Online) may be applied towards core courses in German Studies (core: required courses, departmental electives, FLG electives I and II, and advised electives I and II). FLG 499 Internship in Germany, Austria, or German-Speaking Switzerland is an internship course with up to 6 credits. For students who choose study abroad instead of an internship, FLG 499 Internship in Germany, Austria, or German-Speaking Switzerland serves as a placeholder for transfer credits from the study abroad semester.

Career Opportunities

The expansion of international relations makes the knowledge of foreign languages a critical need for today’s professional. The student of foreign languages is not limited to teaching, translating or interpreting. There are careers in politics, diplomacy, commerce, business, agriculture, science, and research in which a thorough knowledge of foreign languages and cultures is crucial for success. The demand for multilingual personnel extends to all fields of human enterprise and will continue to grow in the coming years.

Foreign Languages and Literatures (BA): German Studies Science and Technology Concentration

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/)

All the general requirements for Bachelor of Arts degree must be met. Degree designations are B.A. in Foreign Languages and Literatures. Major concentrations are B.A. in Foreign Languages and Literatures, and Foreign Language Education with a French, German, or Spanish option.

Outstanding students may become members of the Pi Delta Phi, French Honor Society, Sigma Delta Pi, National Hispanic Honor Society, or Delta Phi Alpha, German Honor Society.

1 A grade of C- or higher is required.

**Study Abroad/Internship Abroad**

It is required that all German Studies students participate in at least one regular semester of study abroad or internship (3-4 months minimum) in a German-speaking country. Please note that no more than 15 hours of transfer credit (from study abroad or from other US institutions which are not a part of UNC-Online) may be applied towards the core courses in German Studies (core: required courses, departmental electives, FLG electives I and II, and advised electives I and II). FLG 499 Internship in Germany, Austria, or German-Speaking Switzerland is an internship course with up to 6 credits. For students who choose study abroad instead of an internship, FLG 499 Internship in Germany, Austria, or German-Speaking Switzerland serves as a placeholder for transfer credits from the study abroad semester. Students in the Science and Technology concentration who study abroad must take a 3 credit course related to their other major, taught in German.

**Career Opportunities**

The expansion of international relations makes the knowledge of foreign languages a critical need for today’s professional. The student of foreign languages is not limited to teaching, translating or interpreting. There are careers in politics, diplomacy, commerce, business, agriculture, science, and research in which a thorough knowledge of foreign languages and cultures is crucial for success. The demand for multilingual personnel extends to all fields of human enterprise and will continue to grow in the coming years.

**Foreign Languages and Literatures (BA): Spanish Language and Literature Concentration**

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/).

All the general requirements for Bachelor of Arts degree must be met. Degree designations are B.A. in Foreign Languages and Literatures. Major concentrations in Arabic Language and Culture, Asian Language, French Language and Literatures, German Studies, Spanish Language and Literatures, and Foreign Language Education with a French, German, or Spanish option.

Outstanding students may become members of the Pi Delta Phi, French Honor Society, Sigma Delta Pi, National Hispanic Honor Society, or of Delta Phi Alpha, German Honor Society.

**Plan Requirements**

**Foreign Languages and Literatures (BA): Spanish Language and Literature Concentration: 120 Total Units**

¹ Additional note: ¹ Additional note: ¹
Spring Semester
FLS 202 Intermediate Spanish II 3
History II 3
GEP Mathematical Sciences (p. 1428) 3
Social Science 3
Philosophy 3
GEP Health and Exercise Studies (p. 1422) 1

Hours 16

Second Year
Fall Semester
FLS 331 Spanish Oral and Written Expression I 3
or FLS 335
FLS 333 The Sounds of Spanish 3
GEP Natural Sciences (p. 1429) with Lab 4
Social Science 3
GEP Additional Breadth (p. 1417) (Mathematical Sciences/ Natural Sciences/Engineering) 3

Hours 16

Spring Semester
FLS 332 Spanish Oral and Written Expression II 3
FLS 340 Introduction to Hispanic Literatures and Cultures 3
GEP Natural Sciences (p. 1429) 3
Social Science 3
Arts & Letters 3

Hours 15

Third Year
Fall Semester
FLS Literature and Culture 3
FLS Department Elective (300/400-level) 3
Free Electives 2 6
GEP Interdisciplinary Perspectives (p. 1426) 3

Hours 15

Spring Semester
GEP Interdisciplinary Perspectives (p. 1426) 2
FLS Departmental Elective (300/400-level) 3
Free Electives 2 9

Hours 14

Fourth Year
Fall Semester
FLS Departmental Elective (400-level) 3
FLS Departmental Elective (400-level) 3
Free Electives 2 9

Hours 15

Spring Semester
FLS 492 Seminar in Hispanic Studies 3
Free Electives 2 9

Hours 12

Total Hours 120

1 A grade of C- or higher is required.
2 Free Electives: Any course except MA 101, FL_101, FLS 105, LAT 101, GRK 101, and PER 101.101-level foreign-language courses can be used as free electives if they are in languages other than the language the student sues to fulfill major language requirement. Only 12 credit hours of free electives may be taken for credit only (S/U).

Study Abroad/Internship Abroad: It is strongly recommended that students participate in at least one study abroad experience to a Spanish-speaking country. Please note that no more than 15 hours of transfer credit (from a non-NCSU program) may be applied towards the major. NCSU sponsored programs count as regular coursework.

Career Opportunities
The expansion of international relations makes the knowledge of foreign languages a critical need for today’s professional. The student of foreign languages is not limited to teaching, translating or interpreting. There are careers in politics, diplomacy, commerce, business, agriculture, science, and research in which a thorough knowledge of foreign languages and cultures is crucial for success. The demand for multilingual personnel extends to all fields of human enterprise and will continue to grow in the coming years.

Foreign Languages and Literatures Concentration (BA): Foreign Language Education

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/)

All the general requirements for Bachelor of Arts degree must be met. Degree designations are B.A. in Foreign Languages and Literatures. Major concentrations in Arabic Language and Culture, Asian Language, French Language and Literatures, German Studies, Spanish Language and Literatures, and Foreign Language Education with a French, German, or Spanish option.

Outstanding students may become members of the Pi Delta Phi, French Honor Society, Sigma Delta Pi, National Hispanic Honor Society, or of Delta Phi Alpha, German Honor Society.

1 A grade of C or above is required for these courses.

All Education students must pass the Praxis II Subject Area tests.

**Study Abroad/Internship Abroad:** It is strongly recommended that students participate in at least one study abroad experience to a Spanish-speaking country. Please note that no more than 15 hours of transfer credit (from a non-NCSU program) may be applied towards the major. NCSU sponsored programs count as regular coursework. FLG students are required to study abroad no later than the Junior Year.

**Professional Education Component:** A grade of C or above is required for these courses. ED/FL 299 fieldwork is taken the semester after Introduction to 21st Century Teaching (ED 204 and ECI 204).

**Admission to Candidacy and Professional Year** All FLL Education candidates must be admitted to candidacy by the beginning of the fall semester of Methods Course. All required coursework to be completed prior to student teaching.

**Career Opportunities**

The expansion of international relations makes the knowledge of foreign languages a critical need for today's professional. The student of foreign languages is not limited to teaching, translating or interpreting. There are careers in politics, diplomacy, commerce, business, agriculture, science, and research in which a thorough knowledge of foreign languages and cultures is crucial for success. The demand for multilingual personnel extends to all fields of human enterprise and will continue to grow in the coming years.

**French (Minor)**

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/)

The objective of the minor in a foreign language is to enable students majoring in any field to acquire proficiency in a second language, understanding the culture, and knowledge of the countries in which the language is spoken.

**Admissions**

Students first download a Departmental Minor Declaration Form (https://cdn.chass.ncsu.edu/sites/fll.chass.ncsu.edu/documents/Minor_Declaration_Form_8_15.pdf) and consult with their major advisor for approval of the minor program. After the student obtains the major advisor's signature, he/she meets with the minor advisor to develop a plan of study indicating required courses and expected dates of completion. A copy of the student's minor plan of study will be kept on file in the Department of Foreign Languages and Literatures.

**Certification**

A University Minor Declaration Form (https://studentservices.ncsu.edu/forms/registrar/declare_minor.pdf) should be submitted to Registration and Records for inclusion of the minor on the student’s official record. Paperwork for certification should be completed no later than during the registration period for the student’s final semester at NC State. Students should meet with the Coordinator of Advising, Ms. Susan Navey-Davis (919.515.9288, https://fll.chass.ncsu.edu/people/faculty_staff/navey (https://fll.chass.ncsu.edu/people/faculty_staff/navey/), 321 Withers), to complete the final certification. Students will receive official recognition on their transcripts for the completed minor.

**Contact Person**

despain@ncsu.edu

**Plan Requirements**

- Completion of 15 credit hours is required.
- 9 Credit hours must be taken at NC State and a maximum of six (6) credit hours may be transferred into the minor from another institution.
- The Department of Foreign Languages and Literature will determine which courses transferred from other institutions may qualify to meet requirements for the minor.
- A grade of ‘C-’ or better is required in all courses in the minor program.
- A maximum of two (2) courses may be used (double-counted) towards both departmental major requirements and minor requirements.
- No courses for the minor may be taken for S/U credit.

Students may declare the minor when they are enrolled in a class that counts toward the minor.

Plan Requirements

• Completion of 15 credit hours is required.
• 9 Credit hours must be taken at NC State and a maximum of six (6) credit hours may be transferred into the minor from another institution.
• The Department of Foreign Languages and Literatures will determine which courses transferred from other institutions may qualify in meeting requirements for the minor, as well as the number of transfer credits permitted to meet program requirements.
• It is required that students complete at least three (3) courses either at NC State or at an NC State sponsored study-abroad program.
• A grade of ‘C’ or better is required in all courses in the minor program.
• A maximum of one (1) course may be used (double-counted) towards both departmental major requirements and minor requirements.
• No courses for the minor may be taken for S/U credit.

Students may declare the minor when they are enrolled in a class that counts toward the minor.

Total Hours 15

1 If placing at the FLG 300 level through the NC State Placement Exam, you will need to take an additional course at the 300 or 400 level in order to assemble the 15 credits for the minor.
2 No more than two (2) courses may be selected from the language skill courses FLG 301 Advanced German, FLG 302 German Oral and Written Expression, FLG 307 Business German, FLG 311 Introduction to German Translation.

Hindi-Urdu (Minor)

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/)

Students majoring in any area of study at NC State are eligible to minor in Hindi-Urdu. The minor in Hindi-Urdu provides students with an understanding of South Asian language, culture, history, and religious traditions, and gives students a foundation from which to explore the relation between the nations of South Asia and others throughout the world. Students who intend to work overseas or in multicultural settings and firms within the United States will find this minor very useful.

Admissions

Students first download a Departmental Minor Declaration Form (https://cdn.chass.ncsu.edu/sites/fll.chass.ncsu.edu/documents/Minor_Declaration_Form_8_15.pdf) and consult with their major advisor for approval of the minor program. After the student obtains the major advisor’s signature, he/she meets with the minor advisor to develop a plan of study indicating required courses and expected dates of completion. A copy of the student’s minor plan of study will be kept on file in the Department of Foreign Languages and Literatures.

Plan Requirements

- Completion of at least 15 credit hours.
- 9 Credit hours must be taken at NC State and a maximum of six (6) credit hours may be transferred into the minor from another institution.
- All courses for the minor must be completed with a grade of ‘C-’ or better.
- Students must demonstrate tested oral and written proficiency in Hindi-Urdu at the FLN 302 Modern Hindi & Urdu Poetry level. This requirement will normally be met by the successful completion of FLN 301 Twentieth Century Hindi & Urdu Fiction and FLN 302 Modern Hindi & Urdu Poetry with a grade of ‘C-’ or better.
- Students are expected to have mastered either the Hindi or Urdu writing systems, but not necessarily both.
- No more than 6 transfer credits may be applied toward the Minor requirement.
- Credit earned on the NC State Summer in India Study Abroad Program may be counted toward the Minor requirement.
- Courses taken in non-NC State Study Abroad or Summer Language Programs may be counted toward the minor but are subject to the transfer credit limit.
- Prerequisite courses (e.g. FLN 101 Elementary Hindi-Urdu I, FLN 102 Elementary Hindi-Urdu II) will be in addition to the hours required for the minor.
- Hindi-Urdu language drill courses (FLN 103 Elementary Hindi-Urdu I Conversation, FLN 104 Elementary Hindi-Urdu II Conversation, FLN 203 Intermediate Hindi-Urdu I Conversation, FLN 204 Intermediate Hindi-Urdu II Conversation) are in addition to the Minor requirement.
- A maximum of two (2) courses may be used (double-counted) towards both departmental major requirements and minor requirements.
- No courses for the minor may be taken for S/U credit.

Students may declare the minor when they are enrolled in a class that counts toward the minor.

Total Hours 15

1 Note: Students who have taken the proficiency examination and placed out of FLN 201 Intermediate Hindi-Urdu I and/or FLN 202 Intermediate Hindi-Urdu II may not count these courses toward the Minor.

These courses may not be offered every semester or every year. Check the Schedule of Courses. With the Minor advisor’s approval, additional South Asia-related courses offered as Special Topics in Foreign Languages, World Literature, History, and Religion Studies may be used to fulfill the elective course requirement.

Italian Studies (Minor)

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/)

The objective of the minor in a foreign language is to enable students majoring in any field to acquire proficiency in a second language, understanding the culture, and knowledge of the countries in which the language is spoken.

Japan Studies (Minor)
To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/)

Over the next two decades, the nations of the Pacific Rim will continue to grow and exert global influence in the areas of culture, business and economics, international relations. The Japan Studies Minor provides students with an understanding of the language, culture and history of Japan and gives students a foundation on which to explore the future of this nation and its relations with others through out the world. Students of any major who intend to work overseas or in multicultural settings and firms within the United States will find this minor very useful.

Admissions
Students first download a Departmental Minor Declaration Form (https://cdn.chass.ncsu.edu/sites/fll.chass.ncsu.edu/documents/Minor_Declaration_Form_8_15.pdf) and consult with their major advisor for approval of the minor program. After the student obtains the major advisor’s signature, he/she meets with the minor advisor to develop a plan of study indicating required courses and expected dates of completion. A copy of the student’s minor plan of study will be kept on file in the Department of Foreign Languages and Literatures.

Certification of Minor
A University Minor Declaration Form (https://studentservices.ncsu.edu/forms/registrar/declare_minor.pdf) should be submitted to Registration and Records for inclusion of the minor on the student’s official record. Paperwork for certification should be completed no later than during the registration period for the student’s final semester at NC State. Students should meet with the Coordinator of Advising, Ms. Susan Navey-Davis (919.515.9288, https://fll.chass.ncsu.edu/people/faculty_staff/navey (https://fll.chass.ncsu.edu/people/faculty_staff/navey/), 321 Withers), to complete the final certification. Students will receive official recognition on their transcripts for the completed minor.

SIS Code: 16JSM

Plan Requirements
- 18 hours (6 courses) of course work.
- 6 hours (2 courses) of Japanese language instruction at or above the FLJ 201 Intermediate Japanese I level.
- Tested language competency of FLJ 202 Intermediate Japanese II or greater.
- A minimum grade of ‘C’ for all courses taken toward the completion of the minor.
- A maximum of two (2) course may be used (double-counted) towards both departmental major requirements and minor requirements.
- No courses for the minor may be taken for S/U credit.

Students may declare the minor when they are enrolled in a class that counts toward the minor.
Japanese (Minor)

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/)

The objective of the minor in a foreign language is to enable students majoring in any field to acquire proficiency in a second language, understanding the culture, and knowledge of the countries in which the language is spoken.

Admissions

Students first download a Departmental Minor Declaration Form (https://cdn.chass.ncsu.edu/sites/fll.chass.ncsu.edu/documents/Minor_Declaration_Form_8_15.pdf) and consult with their major advisor for approval of the minor program. After the student obtains the major advisor’s signature, he/she meets with the minor advisor to develop a plan of study indicating required courses and expected dates of completion. A copy of the student’s minor plan of study will be kept on file in the Department of Foreign Languages and Literatures.

Certification

A University Minor Declaration Form (https://studentservices.ncsu.edu/forms/ registrar/declare_minor.pdf) should be submitted to Registration and Records for inclusion of the minor on the student’s official record. Paperwork for certification should be completed no later than during the registration period for the student’s final semester at NC State. Students should meet with the Coordinator of Advising, Ms. Susan Navey-Davis (919.515.9288, https://fll.chass.ncsu.edu/people/faculty_staff/navey (https://fll.chass.ncsu.edu/people/faculty_staff/navey/), 321 Withers), to complete the final certification. Students will receive official recognition on their transcripts for the completed minor.

### Middle East Studies (Minor)

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/)

The Middle East Studies Minor complements majors in all disciplines, including the sciences, humanities, business, and engineering by providing an interdisciplinary study of a vibrant and critical region of the world. It provides students with an in-depth understanding of the region, its languages, peoples, histories, and cultures. The minor enhances student employment opportunities in both public and private sectors. It also facilitates the development of skills necessary to work and live successfully in the Middle East. Study Abroad and internship programs in the Middle East are offered to encourage and support student engagement in the region. Students can tailor the Minor to suit their individual interests. No courses for the minor may be taken for S/U credit.

As part of the minor, students are strongly encouraged to participate in Study Abroad Program in the Middle East; however, this is not required.

Admissions and Certification of Minor

Jodi Stewart Khater will be responsible for advising students in the Middle East Studies Minor. Students must submit an “Application for Minor” form to Jodi Stewart Khater, the Program Administrator, at any time prior to the end of the pre-registration period of the student’s final semester. Prior to the end of the first week of the student’s final semester, the students must sign the application form, indicating all grades received for the
courses completed in the minor program and courses to be taken during
the student’s final semester.

Total Hours 15

1 Demonstrated 201 equivalency in Turkish or Hebrew (not currently taught at NCSU, but transfer credit and/or proficiency may be applied as determined by the Middle East Studies minor advisor).

Important Notes regarding the required language course:

• Most students will need to take the 101/102 series of language courses prior to their enrollment in the required 201 course, and
  should plan their schedules accordingly.
• The Student may waive the Language Course requirement by showing proficiency at the 201 level in a Middle Eastern language.
  Please contact the Middle East Studies minor advisor to make an appointment for the proficiency test.
• Related language courses taken at NCSU above the 201 level may be counted as elective courses for the Middle East Studies minor.

Notes:

• Students are required to obtain the approval of the minor advisor for special topics courses before enrolling in such courses.
• Middle East language courses that are above 201 can also be counted as part of the 12 credit hour requirement.
• Courses taken as part of the 12 credit hour requirement must be from 2 or more different departments.

¹ Russian literature courses also satisfy the College of Humanities and Social Sciences (CHASS) literature requirement and may satisfy literature or humanities electives in many other majors. Check your Automatic Degree Audit for a listing of acceptable literature courses or consult with the advisor for your major to see how these courses may be used in your degree.

Spanish (Minor)

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.orip.ncsu.edu/pgas/).

The objective of the minor in a foreign language is to enable students majoring in any field to acquire proficiency in a second language, understanding the culture, and knowledge of the countries in which the language is spoken.

Admissions

Students first download a Departmental Minor Declaration Form (https://cdn.chass.ncsu.edu/sites/fll.chass.ncsu.edu/documents/Minor_Declaration_Form_8_15.pdf) and consult with their major advisor for approval of the minor program. After the student obtains the major advisor’s signature, he/she meets with the minor advisor to develop a plan of study indicating required courses and expected dates of completion. A copy of the student’s minor plan of study will be kept on file in the Department of Foreign Languages and Literatures.

Certification

A University Minor Declaration Form (https://studentservices.ncsu.edu/forms/registrar/declare_minor.pdf) should be submitted to Registration and Records for inclusion of the minor on the student’s official record. Paperwork for certification should be completed no later than during the registration period for the student’s final semester at NC State. Students should meet with the Coordinator of Advising, Ms. Susan Navey-Davis (919.515.9288, https://fll.chass.ncsu.edu/people/faculty_staff/navey (https://fll.chass.ncsu.edu/people/faculty_staff/navey/)), 321 Withers Hall, to complete the final certification. Students will receive official recognition on their transcripts for the completed minor.

Department of History

The study of History provides students with a sense of the complexity and contingency of events in an ever-changing world. It provides rich and diverse perspectives. It informs us about the prevalence of unintended consequences. Our goal is to foster independent, research-based judgment of human behavior, similarities, and difference. The Department of History at NC State brings alive the treasure of diverse human experiences and cultures, from the ancient near East to the post-Cold War world, from medieval life to modern science and technology, from the ancient Americas to the modern United States.

Undergraduate students have the choice to study a wide range of historical topics or to follow a particular interest in clusters of electives. We pride ourselves on outstanding teaching, and we offer small classes that allow a great deal of individual attention.

Department Highlights:

- Our faculty connect students to current historical scholarship. Faculty members have a strong record of teaching awards, grant and fellowship awards, publications, and public outreach.
- Students in our programs can receive credit for a professional internship for research or outreach work in agencies, organizations, or museums.
- The departmental Honors Program guide highly qualified and motivated students through individual, directed study with a faculty mentor, producing an Honors Thesis of original research.
- High-achieving History students are invited to join the NC State chapter of Phi Alpha Theta, the national honor society for the promotion of the study of history.
The History Club (https://getinvolved.ncsu.edu/organization/historyclub) provides opportunity to meet and engage with fellow students and explore interests in history in an informal setting.

For more information about our department, including contact information, visit our website (https://history.ncsu.edu/).

History (BA)

The Bachelor of Arts in History offers a broad educational experience that also provides essential skills of critical reading, research, judgment, and perspective. These are skills that employers seek in a wide range of fields. The small department offers a “small college” experience within the wealth of NC State’s diverse offerings and opportunities.

The curriculum offers a great deal of student choice in courses and electives. Flexibility of requirements allows the pursuit of either a diverse experience or a focused, thematic study. Your advisor can help you explore how you might build a thematic interest into your course selection. There are opportunities for guided research experiences and professional internship. Free electives in the curriculum make it straightforward to complete a Minor in one of the many disciplines at NC State.

For more information about his program, visit our website (https://history.ncsu.edu/undergrad/).

1 A grade of C- or higher is required.

## History (BA): Teacher Education Concentration

Ideal for future teachers, the Teacher Education Concentration is a track to a B.A. in History that includes the specific history and social science courses recommended for eventual Social Studies teachers in North Carolina. Students take the full array of undergraduate requirements, and gain a strong foundation of historical and social science content. Advanced students can use free electives to begin graduate-level Education classes.

In collaboration with the College of Education, students with a 3.5 GPA may apply some of the credits from their senior year to the Master of Arts...
in Teaching (M.A.T.) This accelerated program is intended to be a five-year track to the M.A.T. degree. Professional education courses, and the student teaching experience in a high school, are part of the graduate portion of the program, leading to eligibility for North Carolina certification to teach Social Studies in secondary schools in North Carolina and most other states. Holders of the M.A.T. are more competitive in the teacher job market and often earn higher salary.

For more information about this program, visit our website (https://history.ncsu.edu/undergrad/).

**Semester Sequence**

This is a sample.

Critical Path Courses – Identify using the code (CP) which courses are considered critical path courses which represent specific major requirements that are predictive of student success in a given program/plan. Place the (CP) next to the credit hours for the course.
History (BS)

The Bachelor of Science in History allows students to integrate a broad base in science and math with a history education. Students obtain both the analytical and writing skills that come from a history major and the technical proficiency that comes with coursework in science and engineering. This combination is very helpful in a wide variety of careers, including law, business, and public policy. This degree is particularly well suited for students transferring into history from a science or engineering major, or combining studies in a science or engineering discipline.

The curriculum offers flexibility in courses and electives. Students work with their advisor to design a concentration in a single area of science and technology, including the possibility of a second major or minor in a science, technology, engineering, or mathematics discipline. There are opportunities for guided research experiences and professional internship.

For more information about this program, visit our website (https://history.ncsu.edu/undergrad/).

**Total Hours**: 120

---

1. A grade of C- or higher is required.

* Residency Requirement: A minimum of 18 hours in the major at NC State. Fifteen (15) of the 18 hours must be at the 400 level and must include at least one 491 seminar.

* Grade Point Average Requirement: A minimum GPA of 2.0 overall and in the major is required for graduation.

---

### History (Minor)

The minor in History provides additional breadth and depth of study to a variety of majors. The study of history provides understanding of historical background and context, along with experience in research, analysis, and writing. For example, students majoring in political science but with a special interest in the Middle East or Europe can gain a much deeper understanding of how events in the past have shaped present dilemmas. Likewise, those wishing to attend law school can choose from a range of courses in legal history. Students can tailor the course selection in the Minor to suit individual interests.

For more information about this program, visit the Minor website (https://oucc.dasa.ncsu.edu/history-16him/).

### Plan Requirements

- Open to any student and is without any prerequisites.
- Completion of 15 hours (5 courses) in History.
- A grade of ‘C-’ or better in all completed courses used toward the minor.
- A maximum of one (1) course may be used (double-counted) towards both departmental major requirements and minor requirements.
- A maximum of 6 hours of advanced placement credit or transfer credit can be applied towards the minor. The department will determine whether courses which have been transferred from other institutions qualify for the minor.

### Department of Philosophy and Religious Studies

The disciplines of Philosophy and Religious Studies tackle important questions with rigorous standards, relying on over two millennia of accumulated wisdom.

Philosophy seeks to advance our understanding of ourselves and the nature of reality, mind, knowledge and morality. It is concerned with fundamental questions and critically investigates what other disciplines and other human activities take for granted. Philosophy students at NC State study the writings of great philosophers and recent work on topics such as the relationship between mind and brain, the demands of morality, the justification of political and legal institutions, the relationship between knowledge and reality, and the nature of the logic that structures human language and thought.

Religious Studies does not seek to advance the practice of religion or any particular religion, but to understand religion as a complex and significant human phenomenon. Students majoring in Religious Studies at NC State study the history, texts and practices of both well-known and lesser-known religious traditions as well as a range of theoretical and comparative issues concerning religion, such as the meaning of ritual, the role of gender, the impact of religion in the modern world, and the relationship between religion and conflict.
Both Philosophy and Religious Studies help students to develop their capacity to think critically, constructively and independently, to analyze and solve problems, and to elaborate their ideas and present them in a clear, cogent and well-organized way.

For more information about our department, including contact information, visit our website (http://catalog.ncsu.edu/undergraduate/humanities-social-sciences/philosophy-religious-studies/https://philrel.chass.ncsu.edu).

Religious Studies Honors Program

The honors program in Religious Studies guides outstanding majors in independent, critical inquiry of the academic study of religion. Admission to the program requires junior standing, completion of nine hours in the major, and a 3.25 GPA overall and in the major. Honors students must complete at least nine credit hours of honors option course work in Religious Studies (including at least one 400 level course) and write an honors paper as part of an independent study course (REL 498 Special Topics in Religious Studies) which is evaluated by an honors committee.

Graduation requires a 3.25 GPA overall and in the major. Successful completion of the program is noted on the student’s transcript and in the commencement and honors convocation programs.

Cognitive Science (Minor)

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/)

The Department of Psychology and the Department of Philosophy and Religion offer an interdisciplinary minor in cognitive science. The minor offers the student the opportunity for in-depth study with the framework of the “computer model” of the mind. Students study such topics as the nature of human information processing, the acquisition and use of language, and machine intelligence. No courses for the minor may be taken for S/U credit.

Students completing the minor in Cognitive Science will:

• Possess a background in logic, linguistics, psychology, philosophy, computer science and an appreciation and understanding of contemporary research in cognitive science.
• Be acquainted with the range and nature of problems united under the title “cognitive science”.
• Have a general understanding of the computational model of the mind and of the ways in which the computer, together with other technical advances, has revolutionized contemporary thinking about the mind.
• Have an in-depth understanding of at least 2 or 3 central empirical issues currently under investigation in the field of cognitive science.
• Have become aware of both the value and difficulty of pursuing interdisciplinary approaches to research question.

Admissions and Certification of Minor

In both instances, students should contact the contact person listed below. The minor must be completed no later than the semester in which the student expects to graduate from his or her degree program. Paperwork for certification can be found in 340 Withers and should be completed no later than during the registration period for the student’s final semester at NC State.

SIS Code: 16CNM
Plan Requirements

- A minimum of 15 hours is required for the minor in Cognitive Science.
- Students must maintain a grade of 'C-' or better in each course used toward the minor.
- Cognitive Science minor courses must include at least 3 of the 5 primary disciplines: philosophy (including logic), psychology, computer science, linguistics, and neurobiology.
- A maximum of two (2) courses may be used (double-counted) towards both departmental major requirements and minor requirements.

The department will determine whether courses which have been transferred from other institutions qualify for the minor. No more than two courses from other institutions may count toward the minor.

Ethics (Minor)

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/).

Ethical issues arise in every field of human endeavor, so knowledge of ethics is beneficial to students regardless of their major. The Minor in Ethics is designed to expose students in a systematic way to the fundamental theories and concepts of ethics. It is a highly desirable minor because it demonstrates to employers, graduate schools, and professional schools an interest in and knowledge of ethical issues.

In addition to taking a solid core of philosophy courses focusing on ethics, students pursuing the minor may also elect to count towards it one relevant course from another department. This course will be chosen from a list of courses offered by a wide range of other departments including Anthropology, Engineering, Genetics, History, Microbiology, Political Science, and the Science, Technology, & Society Program.

Admissions

Students may declare their intention to complete the Ethics minor. Should students wish to transfer courses from other institutions toward the minor, students should consult with Dr. Timothy Hinton, advisor for the minor.

Certification

To be certified as having completed the minor in Ethics, students must have a minimum 2.0 grade point average across all courses used toward the minor. Dr. Hinton will certify the minor prior to graduation. The minor must be completed no later than the semester in which the student expects to graduate from his or her degree program. Paperwork for certification should be completed no later than during the registration period for the student’s final semester at NC State.

**Health, Medicine and Human Values (Minor)**

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.orp.ncsu.edu/pgas/).

The minor in Health, Medicine, and Human Values offers students an opportunity to critically assess a range of issues that are fundamental to the health of individuals as well as of society. From such an understanding, students as citizens will be more adequately prepared to meet these challenges in both private and public arenas. No courses for the minor may be taken for S/U credit.

**Admissions**

Students interested in declaring a minor in Health, Medicine and Human Values should consult with the contact person listed below. Students who choose this minor will be assigned a minor advisor who can work with the student as needed to assure progression in completion of the minor.

**Certification**

The contact person listed below will certify the minor prior to graduation. The minor must be completed no later than the semester in which the student expects to graduate from his or her degree program. Paperwork for certification should be completed no later than during the registration period for the student’s final semester at NC State.

Logic and Methodology (Minor)

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/)

The Minor in Logic and Methodology is designed to expose students to the most technical areas of philosophy (logic, philosophy of language, philosophy of science). These subjects underlie such fields as cognitive science, computer science, and bio-informatics (including knowledge engineering and data-mining). It is a highly desirable minor because it reveals to employers, graduate schools and professional schools a willingness to engage in theoretical reasoning needed in these fields.

Admissions and Certification of Minor

A grade of C- or better will be required for all courses taken to fulfill the minor requirements. The minor must be completed no later than the semester in which the student expects to graduate from his or her degree program. Paperwork for certification must be completed no later than the end of the regular registration period one semester prior to the semester of graduation.

The coordinator of advising will ascertain whether the requirements of the minor have been fulfilled. The department will determine whether courses that have been transferred from other institutions qualify for its minors. No more than two courses from other institutions may count toward the minor.

Plan Requirements

A maximum of two (2) courses may be used (double-counted) towards both departmental major requirements and minor requirements.

Students must complete five 3 hour courses, as follows:

Philosophy (BA)

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/)

The Department of Philosophy and Religious Studies offers a Bachelor of Arts (B.A.) in Philosophy, and a Bachelor of Science (B.S.) in Philosophy, plus three concentrations. These different programs all cover basic core areas of philosophy that are essential to any good philosophy major, but they also allow students to pursue and showcase different areas of emphasis.

The Differences Between the B.A. and the B.S. in Philosophy

The biggest differences between the B.A. in Philosophy and the B.S. in Philosophy arise from differences between the College of Humanities and Social Sciences’ requirements for the B.A. and the B.S. These differences can be summarized as follows:

- For the B.A., the College requires more courses in the humanities and social sciences, including a 3-credit 201-level course in a foreign language.
- For the B.S., the College requires more courses in the natural sciences and mathematics, plus a 15-credit science or technology option.

The B.A. in Philosophy is, in general, best suited to:
• students with strong interests in a foreign language, history or literature;
• students who would like to transfer to a philosophy major from another major in the humanities or social sciences; and
• students who would like to combine a major in philosophy with another major in the humanities or social sciences.

The B.S. in Philosophy is, in general, best suited to:

• students with strong interests in mathematics, science, or technology;
• students who would like to transfer to a philosophy major from a major in mathematics, science or technology; and
• students who would like to combine a major in philosophy with another major in mathematics, science or technology.

The only difference between the departmental requirements for the B.A. in Philosophy without a concentration and the B.S. in Philosophy without a concentration is that one course in philosophy of science is required for the B.S. but not for the B.A.

For more information about this program, including contact information and career opportunities, visit our website (https://philrel.chass.ncsu.edu/philosophy/).

Total Hours 120-121

Philosophy (BA): Philosophy Ethics Concentration

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/)

The Department of Philosophy and Religious Studies offers a Bachelor of Arts (B.A.) in Philosophy, and a Bachelor of Science (B.S.) in Philosophy, plus three concentrations. These different programs all cover core basic areas of philosophy that are essential to any good philosophy major, but they also allow students to pursue and showcase different areas of emphasis.

The B.A. in Philosophy with a Concentration in Ethics provides excellent preparation for top graduate programs in Philosophy as well as for professional training in fields as diverse as law, library science, management and medicine. Although the major does not train students for a particular career, it develops skills that are useful for work in any field that requires critical, constructive and independent thinking.

For more information about this program, visit our website (https://philrel.chass.ncsu.edu/philosophy/philosophy_major.php).

Any PHI course on the approved GEP-Humanities list.

Arts and Letters (p. 855) | Arts and Letters (p. 855) | 3     |
Social Science (3 Different) (p. 857) | Social Science (3 Different) (p. 857) | 9     |

* Credit in the major will be given for PHI 205 only if it is the student's first PHI course.

The Department of Philosophy and Religion does not accept D grades (D-, D, D+) in courses taken to satisfy any major requirements or in ENG 101 taken to satisfy the Introduction to Writing GEP requirement.

A major GPA of at least 2.0 is required for graduation.

If a student takes a course that double counts in fulfilling more than one requirement, the student will need to take a free elective course(s) to meet the total of 120 credit hours for graduation.
Additional Social Science 3

General Education Program (GEP) Courses

GEP Mathematical Sciences (p. 1428) 6
GEP Natural Sciences (p. 1429) 7
GEP Health and Exercise Studies (p. 1422) 2
GEP Additional Breadth (p. 1417) (Mathematical Sciences/Natural Sciences/Engineering) 3
GEP Interdisciplinary Perspectives (p. 1426) 5
GEP U.S. Diversity (p. 1431) (verify requirement)
GEP Global Knowledge (p. 1419) (verify requirement)
Foreign Language Proficiency (p. 1417) (verify requirement)

Free Electives

Free Electives (12 Hr S/U Lmt) 2 33

Total Hours 120

1 A grade of C- or higher is required.
2 Students should consult their academic advisors to determine which courses fill this requirement.

### Philosophy (BA): Philosophy of Law Concentration

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/).

The Department of Philosophy and Religious Studies offers a Bachelor of Arts (B.A.) in Philosophy, and a Bachelor of Science (B.S.) in Philosophy, plus three concentrations. These different programs all cover basic core areas of philosophy that are essential to any good philosophy major, but they also allow students to pursue and showcase different areas of emphasis.

The B.A. in Philosophy with a Concentration in Philosophy of Law provides excellent preparation for top graduate programs in Philosophy as well as for professional training in fields as diverse as law, library science, management and medicine. Although the major does not train students for a particular career, it develops skills that are useful for work in any field that requires critical, constructive and independent thinking.

For more information about this program, visit our website (https://philrel.chass.ncsu.edu/philosophy/philosophy_major.php).

LOG 201 Logic
LOG 335 Symbolic Logic
LOG 435 Advanced Logic & Metamathematics
Philosophy (BS)

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/).

The Department of Philosophy and Religious Studies offers a Bachelor of Arts (B.A.) in Philosophy, and a Bachelor of Science (B.S.) in Philosophy, plus three concentrations. These different programs all cover basic core areas of philosophy that are essential to any good philosophy major, but they also allow students to pursue and showcase different areas of emphasis.

The Differences Between the B.A. and the B.S. in Philosophy

The biggest differences between the B.A. in Philosophy and the B.S. in Philosophy arise from differences between the College of Humanities and Social Sciences' requirements for the B.A. and the B.S. These differences can be summarized as follows:

- For the B.A., the College requires more courses in the humanities and social sciences, including a 3-credit 201-level course in a foreign language.
- For the B.S., the College requires more courses in the natural sciences and mathematics, plus a 15-credit science or technology option.

The B.A. in Philosophy is, in general, best suited to:

- students with strong interests in a foreign language, history or literature;
- students who would like to transfer to a philosophy major from another major in the humanities or social sciences; and
- students who would like to combine a major in philosophy with another major in the humanities or social sciences.

The B.S. in Philosophy is, in general, best suited to:

- students with strong interests in mathematics, science, or technology;
- students who would like to transfer to a philosophy major from a major in mathematics, science or technology; and
- students who would like to combine a major in philosophy with another major in mathematics, science or technology.

The only difference between the departmental requirements for the B.A. in Philosophy without a concentration and the B.S. in Philosophy without a concentration is that one course in philosophy of science is required for the B.S. but not for the B.A.

Multidisciplinary

[1] Writing and Research
A grade of C- or higher is required.

**Philosophy (BS): Logic, Representation and Reasoning Concentration**

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/).

The Department of Philosophy and Religious Studies offers a Bachelor of Arts (B.A.) in Philosophy, and a Bachelor of Science (B.S.) in Philosophy, plus three concentrations. These different programs all cover basic core areas of philosophy that are essential to any good philosophy major, but they also allow students to pursue and showcase different areas of emphasis.

The B.S. in Philosophy with a Concentration in Logic, Representation and Reasoning provides excellent preparation for top graduate programs in Philosophy as well as for professional training in fields as diverse as law, library science, management and medicine. Although the major does not train students for a particular career, it develops skills that are useful for work in any field that requires critical, constructive and independent thinking.

For more information about this program, visit our website (https://philrel.chass.ncsu.edu/philosophy/philosophy_major.php).

1. A grade of C- or higher is required.

---

**Second Year**

**Fall Semester**

- Literature 3  
- GEP Natural Sciences (p. 1429) 4  
- Logic 3  
- Free Elective 3  
- GEP Mathematical Sciences (p. 1428) 3-4  

**Spring Semester**

- GEP Natural Sciences (p. 1429) 4  
- Arts and Letters 3  
- History 3  
- GEP Social Sciences (p. 1430) 3  
- History of Philosophy 3  

**Third Year**

**Fall Semester**

- GEP Additional Breadth (p. 1417) (Mathematical Sciences/  
  Natural Sciences/Engineering) 3  
- GEP Interdisciplinary Perspectives (p. 1426) Requirement 2-3  
- Value Theory 3  
- Writing/Communication 3  
- Free Electives 3  

**Spring Semester**

- PHI or LOG Elective 6  
- PHI 495 Research and Writing in History of Philosophy 1  
- History of Philosophy 3  
- Philosophy of Science 3  
- Advanced Science/Technology Option Course 3  

**Fourth Year**

**Fall Semester**

- Advanced Science/Technology Option Course II 3  
- PHI 494 Research and Writing in Ethics 1  
- Advanced Science/Technology Option Course III 3  
- Free Electives 3  
- PHI or LOG Elective 3  

**Spring Semester**

- Advanced Science/Technology Option Course IV 3  
- PHI 496 Research and Writing in Contemporary Philosophy 1  
- Contemporary Philosophy 3  
- Advanced Science/Technology Option Course V 3  
- Free Electives 6  

**Total Hours** 120-124

### Philosophy (Minor)

**To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/)!**

The Minor in Philosophy is designed to expose students to three fundamental areas of philosophy: history of philosophy, normative philosophy and contemporary discussion of issues in metaphysics and epistemology. It is a highly desirable minor because it reveals to employers, graduate schools, and professional schools a willingness to engage in theoretical reasoning.

Students can shape their minor in ways that complement their major fields of study. For example, science and engineering majors might include philosophy of science courses (PHI 340 Philosophy of Science and PHI 440 The Scientific Method) among their minor courses. Management students might include PHI 214 Issues in Business Ethics. No courses for the minor may be taken for S/U credit.

### Admissions and Certification of Minor

In both instances, students should contact the person listed below. A University Minor Declaration Form (https://studentservices.ncsu.edu/forms/registrar/declare_minor.pdf) should be submitted to Registration and Records for inclusion of the minor on the student’s official record. The minor must be completed no later than the semester in which the student expects to graduate from his or her degree program. Paperwork for certification should be completed no later than during the registration period for the student’s final semester at NC State.

### Contact Persons

Dr. John Carroll, Minor Adviser  
457 Withers Hall,  
919-515-6140  
john_carroll@ncsu.edu

Joanna King, Student Services Associate  
Department of Philosophy and Religious Studies  
Withers Hall 340  
919.515.6100  
joanna_king@ncsu.edu

**Effective: 8/2011**  
**SIS Code: 16PHM**

### Plan Requirements

- The minor consists of 15 hours of credit (5 courses) including 9 hours of required courses and 6 hours of elective courses.
- A grade of ‘C’ or better will be required for all courses taken to fulfill the minor requirements.
- A maximum of two (2) courses may be used (double-counted) towards both departmental major requirements and minor requirements.

The department will determine whether courses which have been transferred from other institutions qualify for the minor. No more than two courses from other institutions may count toward the minor.

Religious Studies (BA)

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/).

The Bachelor of Arts (B.A.) in Religious Studies offered by the Department of Philosophy and Religious Studies provides a reliable understanding of the nature and impact of religion which prepares students for graduate study, professional training and work in many fields.

The NC State major in Religious Studies provides excellent preparation for top graduate programs in Religious Studies as well as for professional training in fields as diverse as education, library science, ministry and social work. The major also provides knowledge and skills that are useful for work in many fields, including diplomacy, educating the public, fundraising, journalism, museum projects and public service.

The majors in Philosophy and Religious Studies are both designed to combine easily with a major in a further discipline that is relevant to a student’s career aspirations. Students who take advantage of this opportunity will enhance their chance of future success.

For more information about this program, including contact information and career opportunities, visit our website (https://philrel.chass.ncsu.edu/religious_studies/religious_studies_major.php).

### Religious Studies (Minor)

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/)

Students who take a minor program in Religious Studies are required to complete, with a grade of C or better, fifteen (15) hours of courses in selected fields of Religious Studies. In order to ensure a wide study of the field, students are required to select at least one course in each of the following categories: Historical Methods, Textual Methods, and Critical/Theoretical Methods. As part of these requirements, it is expected that at least one of these classes focus on Western religious traditions and at least one on non-Western traditions. Electives may be filled from any of these courses or from other Religious Studies course offerings. No courses for the minor may be taken for S/U credit.
Admissions and Certification of Minor

The minor must be completed no later than the semester in which the student expects to graduate from his or her degree program. Paperwork for certification can be found in Departmental Offices and should be completed no later than during the registration period for the student’s final semester at NC State.

Plan Requirements

- 15 hours (5 courses) of course work is required to complete the minor in Religious Studies.
- Students are required to select at least 1 course in Western Religious Traditions and at least 1 course in non-Western religious traditions.
- A minimum grade of ‘C-’ is needed in all courses taken toward the minor.
- A maximum of two (2) courses may be used (double-counted) towards both departmental major requirements and minor requirements.

Required Courses

The department will determine whether courses which have been transferred from other institutions qualify for the minor. No more than two courses from other institutions may count toward the minor. Students must select at least one course in each of the following categories: Textual Methods, Historical Methods and Critical/Theoretical methods.

Department of Psychology

Psychology

Psychology is one of the basic majors in liberal arts and sciences. Psychologists use the methodology of science to study human behavior and experience. A bachelor’s degree in psychology forms an excellent foundation for careers in psychology, as well as business and government. It will also enhance life skills such as parenting and human social interaction. Students can also use this degree as an entry into further education leading to an advanced degree in applied or
experimental psychology, or to such fields as law, medicine, business or social work.

The Department of Psychology at NC State offers a Bachelor of Arts (B.A.) in Psychology as well as an undergraduate Psychology Minor. Psychology majors at NC State have the opportunity to get involved in a variety of ways, including:

- Psychology Club: All undergraduate majors are members of the Psychology Club, which provides a number of enrichment activities
- Psi Chi: The International Honor Society in Psychology that recognizes academic excellence among Psychology students
- Other student organizations with like-minded peers in the College of Humanities and Social Sciences

For more information about this department, including contact information, visit our website (https://psychology.chass.ncsu.edu/).

Psychology (BA): General Psychology Concentration

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.orp.ncsu.edu/pgas/).

A Psychology degree is oriented toward the student who wants a broad understanding of the types of problems with which psychology is concerned and the ways in which psychologists approach and attempt to solve these problems. Curriculum requirements are sufficiently flexible for students to concentrate, if they wish, in another area of study as well as psychology, and thereby prepare themselves for a variety of careers or professional programs. By wise choice of elective courses, a student can prepare for medical, legal, business, or education graduate training, while at the same time acquire a basic background in the social sciences.

For more information about this program, including contact information, visit our website (https://psychology.chass.ncsu.edu/undergraduate/).

Psychology (Minor)

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/).

The Psychology Department offers a minor in Psychology to majors in any field except Psychology. No courses for the minor may be taken for S/U credit.

Admissions

Students may declare their intention to complete the Psychology minor by consulting with the contact person listed below.

Certification

The contact person listed below will certify the minor prior to graduation. The minor must be completed no later than the semester in which the student expects to graduate from his or her degree program. Paperwork for certification should be completed no later than during the registration period for the student's final semester at NC State.

Effective: 8.2016

Contact Person

Dr. Dana Kotter-Gruehn
639 Poe Hall,
919-513-4855
psych_advising@ncsu.edu

SIS Code: 16PCM

Plan Requirements

- No more than 9 hours may be met with transfer credit.
- Completion of 18 credit hours of coursework with a grade of 'C-' or better.
- 6 of the 18 hours must be in the foundational courses of psychology and 9 hours in the core courses of psychology.
- A maximum of one (1) course may be used (double-counted) towards both departmental major requirements and minor requirements.

Total Hours 120

1 A grade of C- or higher is required.
Students who have taken a research methods class in Political Science (PS 371 Research Methodology of Political Science), Sociology (SOC 300 Social Research Methods), or Communication (COM 240 Communication Inquiry) - with a ’C-‘ or better - do not have to take PSY 230 Introduction to Psychological Research for their psychology minor. Instead, they will take an additional 300-level or 400-level Psychology course (with the exception of PSY 499 Individual Study in Psychology).

Department of Sociology and Anthropology

The Department of Sociology and Anthropology offers introductory and advanced courses in anthropology and sociology. The curricula aim to provide majors with an academic background and practical experiences useful for careers in government, business and nonprofit organizations, or for pursuing advanced academic work.

Undergraduate majors may earn one of four degrees: Bachelor of Arts in General Anthropology, Bachelor of Arts in Criminology, Bachelor of Arts in Sociology, and Bachelor of Science in Sociology.

What sets our department apart:

• Our department was the first at NC State to award a doctoral degree, in 1926.
• Our department is one of the largest of its kind in the United States, with around 30 full-time faculty, plus instructors and lecturers, and more than 9,000 students each year.
• The Department Honors Program (https://socant.chass.ncsu.edu/undergraduate/honors/) offers additional academic challenge, intellectual independence, and the opportunity to work more closely with supportive, enthusiastic faculty.
• Each student is assigned a professionally trained Academic Advisor, with whom they work from entry until graduation, allowing the student to build a trusting relationship with an advisor who will the student identify and work toward their academic and professional goals.
• Our majors have countless opportunities to participate in impactful research and engagement that contributes to our understanding of what it means to be human, live in society, to create and recreate ourselves and our cultures.

For more information about our department, visit our website (https://socant.chass.ncsu.edu/).

Anthropology (BA): General Anthropology Concentration

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/).

The Bachelor of Arts (B.A.) in Anthropology introduces students to anthropology with offerings in three of the subfields of the discipline: archaeology, biological anthropology, and cultural anthropology. Our program focuses on the interrelationships among the cultural, social and biological bases of human behavior in evolutionary and contemporary contexts. The degree emphasizes exposure to different cultures through classic ethnography, and a better understanding of the past through archaeology and human skeletal analysis.

• Anthropology majors are encouraged to take an international perspective as we examine diverse cultures and areas of the world
• Students can join the Anthropology Club, a student organization open to all majors that provides students opportunities to pursue their interest in anthropology through collaboration with professors, peers, and guest speakers
• An anthropology internship is offered through the program
• Theory and methods are a requirement of the program

For more information about this program, visit our website (https://socant.chass.ncsu.edu/undergraduate/anthropology/).

Anthropology (Minor)

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/).

This minor focuses on anthropology as the comparative study of human beings. As such, anthropology is a broad discipline which includes the physical and cultural aspects of humans. The minor permits flexibility in course selection (15 credit hours). The anthropological sub-disciplines of cultural anthropology, physical anthropology, archaeology, and linguistics are represented in the course offerings. No courses for the minor may be taken for S/U credit.

Admissions

To be admitted to the program, a student must have a GPA of at least 2.0. Students may declare their intention to complete the minor by submitting the Declare a Minor (https://studentservices.ncsu.edu/forms/registrar/declare_minor.pdf) form to the minor advisor. Declaring a minor early will help ensure you have access to courses that may restrict seats to departmental majors and minors. Should students wish to transfer a course from another institution toward the minor, they should consult Stephanie Jares, advisor for the minor.

Certification

The minor should be declared as soon as the student makes the decision to pursue a minor. Minor coursework must be completed no later than the semester in which the student expects to graduate from his or her degree program. Paperwork to declare the minor can be found outside room 334B in the 1911 Building and should be completed no later than the registration period for the student’s final semester at NC State. Students should see the person listed below for certification of the minor.

sis@ncsu.edu

SIS Code: 16AYM

Plan Requirements

- Completion of 15 hours of coursework in anthropology courses.
- 9 of the 15 hours must be taken at NC State University.
- A maximum of one (1) course may be used (double-counted) towards both departmental major requirements and minor requirements.

Criminology (BA)

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/).

Criminology is the scientific study of crime from a social and individual perspective that encourages students to think critically about the causation, correction, and prevention of crime.

The Bachelor of Arts (B.A.) in Criminology provides a professional orientation that will be relevant to your occupational goals as well as your participation as a citizen in community affairs. Students will gain a foundation for understanding the causes, correction, and prevention of crime and the agencies involved in criminal justice. More specific areas of study concern deviance, juvenile delinquency, the court system, and correctional facilities.

Our students complete a 120 hour internship with a criminal justice field agency during their senior year. Students also have the opportunity to join the Criminal Justice Club (CJC), a student-maintained club that aims to provide students of all majors an environment in which to further foster their interests, meet like-minded peers, and allow them the opportunity to network within the field.

For more information about this program, visit our website (https://socant.chass.ncsu.edu/undergraduate/criminology/).

Criminology (Minor)

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/)

The criminology minor emphasizes criminological theory and research and is an introduction to the concept of deviance and related issues of criminal behavior. The minor is grounded in sociological theory and methods and allows students flexibility in the choice of specialized criminological study such as, juvenile delinquency, sociology of law, formal institutions of social control, community and crime, and data analysis in criminology. No courses for the minor may be taken for S/U credit.

Admissions

To be admitted to the program, a student must have a GPA of at least 2.0. Students may declare their intention to complete the minor by submitting the Declare a Minor form (http://www.ncsu.edu/registrar/forms/pdf/minor.pdf) to the minor advisor. Declaring a minor early will help ensure you have access to courses that may restrict seats to departmental majors and minors. Should students wish to transfer a course from another institution toward the minor, they should consult Jenny Rasch, advisor for the minor.

Certification

The minor should be declared as soon as the student makes the decision to pursue a minor. Minor coursework must be completed no later than the semester in which the student expects to graduate from his or her degree program. Paperwork to declare the minor can be found outside room 334B in the 1911 Building and should be completed no later than the registration period for the student’s final semester at NC State. Students should see the person listed below for certification of the minor.

Contact Person

SIS code: 16CLM

Plan Requirements

The Criminology minor consists of 16 hours. Any student seeking a minor must consult with a minor advisor on a plan of work, and must file a copy of this plan with the minor advisor at least one semester before graduation.

- A 2.0 GPA is required in the minor course work.
- No courses taken for S/U credit will count toward the minor.
- A minimum of 9 hours required course work must be taken at NC State, 3 hours of which must be 400 level.
- Students completing a minor in Criminology may not also complete a minor in Sociology.
- Students completing a major in Sociology (B.A. or B.S.) may not minor in Criminology.
- A maximum of ONE (1) course may be used (double-counted) towards both departmental major requirements and minor requirements.

### Natural Sciences

- **GEP Natural Sciences** (p. 1429) 7

### GEP Courses

- **GEP Health and Exercise Studies** (p. 1422) 2
- **GEP Additional Breadth** (p. 1417) (Mathematical Sciences/Natural Sciences/Engineering) 3
- **GEP Interdisciplinary Perspectives** (p. 1426) 5
- **GEP U.S. Diversity** (p. 1431) (verify requirement) 3
- **GEP Global Knowledge** (p. 1419) (verify requirement) 3
- ** Foreign Language Proficiency** (p. 1417) (verify requirement) 3

### Free Electives

- Free Electives (12 Hr S/U Lmt) 2 26

Total Hours 111

1 A grade of C- or higher is required.

2 Students should consult their academic advisors to determine which courses fill this requirement.

---

1 If a student successfully completes PS 371 Research Methodology of Political Science or PSY 240 Introduction to Behavioral Research I/PSY 241 Introduction to Behavioral Research I Lab with a ‘C’ or better, the SOC 300 Social Research Methods requirement will be waived, but three (3) additional hours of sociology are required at the 300 or 400 level. PSY 230 Introduction to Psychological Research cannot be used as a substitute for SOC 300 Social Research Methods.

2 Note that SOC 300 Social Research Methods has a prerequisite or co-requisite, ST 311 Introduction to Statistics.

# Sociology (BS)

Sociology is the study of social life, social change and the social causes and consequences of human behavior. Sociologists investigate the structure of groups, organizations, societies and how people interact within these contexts.

The Bachelor of Science (B.S.) in Sociology introduces students to the scientific study of social life, social change, and the social causes and consequences of human behavior. Courses address social groups, social interaction and the institutional processes necessary to understand patterns of behavior, social inequality, social change and resistance, and how social systems work.

- Sociology students have the opportunity to join the Taylor Sociology Club, a student organization which provides students the opportunity to pursue their sociological interests and promotes an understanding of the discipline of sociology.
- NC State also has an active chapter of Alpha Kappa Delta, an international sociology honor society that serves to promote academic scholarship and interest in the sociological understanding of human life.

For more information about this program, visit our website (https://socant.chass.ncsu.edu/undergraduate/sociology/).

### Second Year

#### Fall Semester
- Literature 3
- Physical/Technical Anthropology Elective 3
- Basic Science w/ Lab 4
- GEP Social Sciences (p. 1430) 3

#### Spring Semester
- SOCE 300 Social Research Methods 4
- Arts and Letters 3
- Math Elective 3
- GEP Social Sciences (p. 1430) 3
- Advanced Science/Technology Requirement 3

#### Hours
- 14

### Third Year

#### Fall Semester
- SOC Elective (3**) 3
- Philosophy 3
- GEP Additional Breadth (p. 1417) (Mathematical Sciences/Natural Sciences/Engineering) 3
- Advanced Science/Technology Requirement 3
- Writing & Communication 3

#### Spring Semester
- SOC Elective (3***) 3
- Societal Challenges Elective 3
- GEP Interdisciplinary Perspectives (p. 1426) 3
- GEP Health and Exercise Studies (p. 1422) 1

#### Hours
- 15

### Fourth Year

#### Fall Semester
- Societal Challenges Elective 3
- SOC Elective (4***) 3
- Sociological Theory Elective 3
- Advanced Science/Technology Requirement 3
- GEP Social Sciences (p. 1430) 3

#### Spring Semester
- Sociological Data Internship or Analysis 3
- Applied Sociology Elective 3
- Advanced Science/Technology Requirement 3

#### Hours
- 15

### Plan Requirements

- Any student seeking a minor must consult with a minor advisor on a plan of work, and must file a copy of this plan with the minor advisor at least one semester before graduation.
- A 2.0 GPA is required in the minor course work.
- No courses taken for S/U credit will count toward the minor.

### Residency Requirement
A minimum of 18 hours at NC State in departmental requirements.
A minimum of 9 hours required course work must be taken at NC State, 3 hours of which must be 400 level.

Students completing a minor in Sociology may not also complete a minor in Criminology.

Students completing a major in Criminology (B.A. or B.S.) may not minor in Sociology.

A maximum of one (1) course may be used (double-counted) towards both departmental major requirements and minor requirements.

Elective Courses

Select two SOC 300-level courses | 6
Select one SOC 400-level courses | 3

Total Hours | 16

1 If a student successfully completes PS 371 Research Methodology of Political Science or PSY 240 Introduction to Behavioral Research I/PSY 241 Introduction to Behavioral Research I Lab with a "C-" or better, the SOC 300 Social Research Methods requirement will be waived, but three (3) additional hours of sociology are required at the 300 or 400 level. PSY 230 Introduction to Psychological Research can not be used as a substitute for SOC 300 Social Research Methods.

2 Note that SOC 300 Social Research Methods has a prerequisite or co-requisite, ST 311 Introduction to Statistics.

Interdisciplinary Studies

Home to six major programs, nine minors and three dual degree programs, Interdisciplinary Studies (IDS) offers students boundary-crossing curricula of study that provide the skills and tools to think critically about our increasing dynamic society. Drawing on faculty from throughout the College of Humanities and Social Sciences and the University, these diverse courses of study make our students innovative and uniquely prepared to address the grand challenges our nation and our world face today. Interdisciplinary Studies offers myriad major courses of study, allowing our students to engage with world cultures, garner skills in flexible thinking, and prepare to engage the professional world as informed citizens. Students are exposed to complex and diverse perspectives, building the skills and tools necessary for a successful professional career or graduate study.

Here are some of our department highlights:

- Over half of our majors graduate with honors from either a scholars program or a dual degree program
- Our students can choose from over 40 Study Abroad programs offered by the College that allow students to engage across disciplines and global competencies
- Faculty from all corners of the university are a part of the Interdisciplinary Studies program
- The Interdisciplinary Studies Council, composed of directors and coordinators within the unit, serves in an advisory role for our IDS major programs and concentrations

For more information about this department, including contact information, please see our website (http://ids.chass.ncsu.edu).

Africana Studies Program

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/).

The Interdisciplinary Studies department offers a Bachelor of Arts (B.A.) with concentrations in Africana Studies and Africana Studies Community Studies, as well as a minor in Africana Studies.

Our contemporary world requires people to be global citizens. Regardless of your personal, professional and career goals, you will need to possess an understanding of the people, places and cultures within and beyond the United States. And more importantly, you will need to possess the ability to act positively and productively on this diverse world. An interdisciplinary studies degree concentration in Africana Studies will teach you how to both THINK and DO in our ever-changing and increasingly diverse global society.

People with a background in Africana Studies go on to be successful in a myriad of professional areas, such as law, science and technology, government and politics, and the corporate world, or to earn advanced degrees in numerous fields.

For more information about this program, visit our website (https://ids.chass.ncsu.edu/studies/africana.php).

Plans

- Africana Studies (Minor) (p. 958)
- Interdisciplinary Studies (BA): Africana Studies Community Studies Concentration (p. 959)
- Interdisciplinary Studies (BA): Africana Studies Concentration (p. 968)

Africana Studies (Minor)

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/).

The Africana Studies minor provides a comparative and interdisciplinary study of the Black experience in Africa and the Americas. Three required courses include an introduction to African Civilizations (AFS 240 African Civilization), Introduction to African American Studies (AFS 241 Introduction to African American Studies), and Introduction to the African Diaspora (AFS 342 Introduction to the African Diaspora). Two elective courses may be selected from a list of designated courses in such disciplines as anthropology, communication, English, history, political science, psychology, social work, and sociology. The minor is designed to bring together students from diverse backgrounds and curricula who share a common interest in the global experience of African people. No courses for the minor may be taken for S/U credit.

Admissions
Students interested in pursuing the African-American Studies minor should consult with Dr. Haddy Njie as listed below.

Certification
A University Minor Declaration Form (https://studentservices.ncsu.edu/forms/registrar/declare_minor.pdf) should be submitted to Registration and Records for inclusion of the minor on the student’s official record. Dr. Njie will certify completion of the minor. The minor must be completed no later than the semester in which the student expects to graduate from his or her degree program. Paperwork for certification should be completed no later than during the registration period for the student’s final semester at NC State.

Contact Person

1911 Building, Office 107-C
hmnjie@ncsu.edu

Plan Requirements

- Completion of 15 credit hours.
- A minimum grade of ‘C’ (2.0) or better must be achieved in each course counting towards the minor.
- A maximum of one (1) course may be used (double-counted) towards both departmental major requirements and minor requirements.

Students completing Africana Studies courses will:

- become knowledgeable of the major theories of the disciplines represented in Africana Studies.
- learn the principal themes and issues in the history of Black people.
- acquire an understanding of Black art, literature, music and performance.
- be able to identify the role of key thinkers, movements, and ideas relevant to the experience of African people.
- have the capacity to critically analyze the internal and external factors affecting the development of peoples throughout the African Diaspora.
- develop the skills necessary to act positively and productively in our increasingly diverse world.

People with a background in Africana Studies go on to be successful in a myriad of professional areas, such as law, science and technology, government and politics, and the corporate world, or to earn advanced degrees in numerous fields.

**Interdisciplinary Studies (BA): Africana Studies Community Studies Concentration**

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.orip.ncsu.edu/pgas/).

The Africana Studies curriculum is designed to explore the cross-cultural, international, and multidisciplinary perspectives of the African diaspora. By studying the black experiences throughout the world, students will develop an African-centered lens to examine how the intersections of race, ethnicity, gender, and class affect the human experience. The core courses aim to develop students’ ability to tackle global issues in an ever-changing world.

Students completing Africana Studies courses will:

- become knowledgeable of the major theories of the disciplines represented in Africana Studies.
- learn the principal themes and issues in the history of Black people.
- acquire an understanding of Black art, literature, music and performance.
- be able to identify the role of key thinkers, movements, and ideas relevant to the experience of African people.
Foreign Language Proficiency (p. 1417) (verify requirement)

Free Electives
Free Electives (12 Hr S/U Lmt) 2

Total Hours 120

1 A grade of C- or higher is required.
2 Students should consult their academic advisors to determine which courses fill this requirement.

Interdisciplinary Studies (BA): Africana Studies Concentration

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/)

The Africana Studies curriculum is designed to explore the cross-cultural, international, and multidisciplinary perspectives of the African diaspora. By studying the black experiences throughout the world, students will develop an African-centered lens to examine how the intersections of race, ethnicity, gender, and class affect the human experience. The core courses aim to develop students' ability to tackle global issues in an ever-changing world.

Students completing Africana Studies courses will:

• become knowledgeable of the major theories of the disciplines represented in Africana Studies.
• learn the principal themes and issues in the history of Black people.
• acquire an understanding of Black art, literature, music and performance.
• be able to identify the role of key thinkers, movements, and ideas relevant to the experience of African people.
• have the capacity to critically analyze the internal and external factors affecting the development of peoples throughout the African Diaspora.
• develop the skills necessary to act positively and productively in our increasingly diverse world.

People with a background in Africana Studies go on to be successful in a myriad of professional areas, such as law, science and technology, government and politics, and the corporate world, or to earn advanced degrees in numerous fields.

For more information about this program, visit our website (https://ids.chass.ncsu.edu/studies/africana.php).

Arts Studies Program

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/).

The Interdisciplinary Studies department offers a Bachelor of Arts (B.A.) in Arts Studies with concentrations in Film Studies, Music, Theater, and Visual Arts, as well as an Arts Studies Minor.

Arts Studies, a unique creative program at NC State, is designed to expand student perspectives through an interdisciplinary approach to the arts. Students learn flexible and critical thinking skills that prepare them for a satisfying career in the arts.

The program of study requires students to integrate the history, analysis and practice of an art form with linking courses that connect the arts to other areas including politics, science, technology, and more. The students also participate in an interdisciplinary capstone course. Students choose one of four foundational areas: visual art, film, music, or theater. The degree prepares students to pursue advanced studies in diverse academic fields, including those leading to work as a practicing artist, and for careers in arts management, arts entrepreneurship, arts education, nonprofit arts administration.

Why study the arts?

• Arts Studies majors learn skills that apply to many fields, which are relevant in a changing, interdisciplinary, global world
• Our students find work in museums and art galleries, sound studios, arts nonprofits and community arts programs
• Graduates of the program follow their passion to make art and teach others and start their own arts businesses
• Graduates become artistic directors for large companies and startups.

For more information about this program, visit our website (https://ids.chass.ncsu.edu/studies/africana.php).

Faculty

Director
Rodney A. Waschka, Professor, Arts Studies and Music

Core Faculty
Alison E. Arnold, Teaching Assistant Professor, Arts Studies and Music
Gary D. Beckman, Director of Entrepreneurial Studies in the Arts
James C. Boyles, Teaching Assistant Professor, History
Franklin D. Cason, Assistant Professor, Film Studies, English
Paul Garcia, Lecturer
Ora Gelley, Assistant Professor, Film Studies
Arts Studies (BA): Film Studies Concentration

Plans
- Arts Studies (BA): Film Studies Concentration (p. 978)
- Arts Studies (BA): Music Concentration (p. 986)
- Arts Studies (BA): Theater Concentration (p. 995)
- Arts Studies (BA): Visual Arts Concentration (p. 1004)
- Arts Studies (Minor) (p. 1012)

Arts Studies (BA): Film Studies Concentration

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/)

Arts Studies majors learn skills that apply to many fields, which are relevant in a changing, interdisciplinary, global world. Our students find work in museums and art galleries, sound studios, arts nonprofits and community arts programs. Graduates of the program follow their passion to make art and teach others and start their own arts businesses. They become artistic directors for large companies and start-ups.

Graduates with a Bachelor of Arts (B.A.) in Arts Studies: Film Studies Concentration have gone on to careers in film and television and in education. The analytical and communication skills our program develops enables our graduates to work successfully in creative, educational, and business environments. Many of our students go on to obtain advanced degrees (MA, MLIS, PhD) in complementary fields of study.

For more information about this program, visit our website (https://ids.chass.ncsu.edu/studies/africana.php).

1. C- or better

### Arts Studies (BA): Music Concentration

To see more about what you will learn in this program, visit the Learning Outcomes website [here](https://apps.oirp.ncsu.edu/pgas/)

Arts Studies majors learn skills that apply to many fields, which are relevant in a changing, interdisciplinary, global world. Our students find work in museums and art galleries, sound studios, arts nonprofits and community arts programs. Graduates of the program follow their passion to make art and teach others and start their own arts businesses. They become artistic directors for large companies and start-ups.

The Arts Studies Program together with the Music Department sponsors the Arts NOW Series. The Series includes performances of and lectures about contemporary performance works that include music. Guest performers, composers, dancers, and video artists appearing in the series range from regionally based artists to international guests from Europe, Asia, and South America.

For more information about this program, visit our website [here](https://music.arts.ncsu.edu/).

Second Year
Fall Semester
- History & Analysis Foundation Course: 3
- History II: 3
- Literature I: 3
- GEP Mathematical Sciences (p. 1428): 3
- GEP Social Sciences (p. 1430): 3

Spring Semester
- History & Analysis Foundation Course: 3
- History & Analysis Foundation Course: 3
- Literature II: 3
- Social Science: 3
- GEP Interdisciplinary Perspectives (p. 1426): 3

Third Year
Fall Semester
- Production Foundation Course: 3
- Arts & Letters: 3
- Philosophy: 3
- GEP Social Sciences (p. 1430): 3
- Free Electives: 3
- GEP Health and Exercise Studies (p. 1422): 1

Spring Semester
- Advised Elective: 3
- Linking Foundation Course: 3
- GEP Interdisciplinary Perspectives (p. 1426): 2
- Free Electives: 7

Fourth Year
Fall Semester
- Production Foundation Course: 3
- Linking Foundation Course: 3
- GEP Additional Breadth (p. 1417) (Mathematical Sciences/Natural Sciences/Engineering): 3
- Free Electives: 6

Spring Semester
- ARS 494: Topics in Arts Studies: 3
- Free Electives: 11

Total Hours: 120

Arts Studies majors learn skills that apply to many fields, which are relevant in a changing, interdisciplinary, global world. Our students find work in museums and art galleries, sound studios, arts nonprofits and community arts programs. Graduates of the program follow their passion to make art and teach others and start their own arts businesses. They become artistic directors for large companies and start-ups.

Students in the Bachelor of Arts (B.A.) in Arts Studies: Theater Concentration enroll in Theatre courses in acting, directing, introduction to theatre and all areas of technical theatre, including stagecraft, costume, makeup, lighting and scenic design.

For more information about this program, visit our website (https://theatre.arts.ncsu.edu/).

## Free Electives (12 Hr S/U Lmt)

27

### Total Hours

120

1. A grade of C- or higher is required.
2. Students should consult their academic advisors to determine which courses fill this requirement.

Arts Studies (BA): Visual Arts Concentration

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/).

Arts Studies majors learn skills that apply to many fields, which are relevant in a changing, interdisciplinary, global world. Our students find work in museums and art galleries, sound studios, arts nonprofits and community arts programs. Graduates of the program follow their passion to make art and teach others and start their own arts businesses. They become artistic directors for large companies and start-ups.

Students in the Bachelor of Art (B.A.) in Arts Studies: Visual Arts Concentration will engage in interdisciplinary, scholarly work based in theory, analysis, history, and materials exploration.

For more information about this program, visit our website (https://ids.chass.ncsu.edu/studies/arts/visualart.php).

## Arts Studies (Minor)

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/)! CHASS offers an academic minor in Arts Studies to all majors in the University. This interdisciplinary minor is designed to enrich the student’s university experience, to serve as a foundation for learning and understanding in the arts beyond the university years and to provide a line of thinking and skill development that may contribute to the development provided by the student’s courses in the major or that by be only loosely related to the major. This minor provides the student with a fundamental understanding of the historical, theoretical and practical disciplines of the arts. No courses for the minor may be taken for S/U credit.

### Admissions

Students may declare their intention to complete the Arts Studies minor by contacting Dr. Rodney Waschka, advisor for the minor, as listed below. Formal admission to the minor occurs when the Arts Studies Council has approved the student’s selection of coursework for the minor.

### Certification

Dr. Waschka will certify the minor prior to graduation. The minor must be completed no later than the semester in which the student expects to graduate from his or her degree program. Paperwork for certification should be completed no later than during the registration period for the student’s final semester at NC State.

### Contact Person

Dr. Rodney Waschka  
101B Winston Hall

rodney_waschka@ncsu.edu

**SIS Code: 16ARTM**

### Plan Requirements

- 18 credit hours must be taken to complete this minor.
- Students design their minor from the following courses in consultation with the minor advisor.
- The courses selected for the minor must balance work in 3 areas: history, criticism and theory, and application (studio or performance courses).
• Each Art Studies Minor program will be reviewed and approved by the Arts Studies Advisory Council.
• A maximum of one (1) course may be used (double-counted) towards both departmental major requirements and minor requirements.

Elective Courses
The following list of courses is illustrative, not exhaustive. Students may find other courses that they wish to include in their Arts Studies minor program. Students should be aware that some of the below courses have one or more prerequisites and that some of them are restricted to students in a certain major. Enrolling in the Arts Studies minor does not guarantee students that they will be accepted in these courses.

concentration. You can combine courses from multiple disciplines to develop a clear vision for your education and attain your personal and professional goals. You can combine courses from multiple disciplines to create a one-of-a-kind Bachelor of Arts (B.A.) or Bachelor of Science (B.S.) degree. The Self-Design program will help you identify a faculty sponsor/mentor. This sponsor will assist the student to develop an academically sound major in a chosen interdisciplinary area. If the student is not able to identify a faculty sponsor, Dr. Sharon Setzer (sharon_setzer@ncsu.edu), Coordinator for the Self-Design Major program, can help students identify an appropriate faculty sponsor.

Toward the end of your coursework, you will complete a capstone course requiring you to use skills and knowledge obtained during the degree to design and implement a service-learning experience to benefit an organization in the community. Please see the Self-Design Plans to see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/)

The Interdisciplinary Studies (IDS) Self-Design B.A. or B.S. options exist to allow undergraduate students to design a major in an area of academic interest that crosses disciplinary boundaries and creates a unique educational experience.

Admission to the Self-Design Major program is by application only. The first step for the student who wishes to enter the program is to identify a faculty sponsor/mentor. This sponsor will assist the student to develop an academically sound major in a chosen interdisciplinary area. If the student is not able to identify a faculty sponsor, Dr. Sharon Setzer (sharon_setzer@ncsu.edu), Coordinator for the Self-Design Major program, can help students identify an appropriate faculty sponsor.

Toward the end of your coursework, you will complete a capstone course requiring you to use skills and knowledge obtained during the degree to design and implement a service-learning experience to benefit an organization in the community. Please see the Self-Design FAQ (https://ids.chass.ncsu.edu/studies/selfdesign/FAQ.php) page (question 7) for a more detailed description.

## Film Studies Program

### Minor in Film Studies

The Departments of English, Communication, and Foreign Languages & Literatures offer a Minor in Film Studies (p. 694). The Minor provides an introduction to the film medium, some background in cinema history, and the opportunity for in-depth study of selected topics in genres, directors, and film styles.

For more information on the film program at NC State visit the Film Studies website (https://english.chass.ncsu.edu/film/).

### Faculty

#### Core Faculty

Franklin D. Cason, Assistant Professor, Film Studies, English

Andrew R. Johnston, Assistant Professor, Film Studies, English

Andrea C. Mensch, Lecturer

Devin Orgeron, Associate Professor

Ora Gelley, Associate Professor

Marsha Gordon, Associate Professor

Thomas A. Wallis, Lecturer

### Interdisciplinary Studies

The Interdisciplinary Studies program also allows students the opportunity to create a one-of-a-kind Bachelor of Arts (B.A.) or Bachelor of Science (B.S.) degree. The Self-Design program will help you develop a clear vision for your education and attain your personal and professional goals. You can combine courses from multiple disciplines as you take on a multidisciplinary approach to solving problems in our complex world.

### Plans

- Interdisciplinary Studies (BA): Self Design Concentration (p. 1014)
- Interdisciplinary Studies (BS) (p. 1022)

### Interdisciplinary Studies (BA): Self Design Concentration

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/)

The Interdisciplinary Studies (IDS) Self-Design B.A. or B.S. options exist to allow undergraduate students to design a major in an area of academic interest that crosses disciplinary boundaries and creates a unique educational experience.

Admission to the Self-Design Major program is by application only. The first step for the student who wishes to enter the program is to identify a faculty sponsor/mentor. Semester Sequence

This is a sample.

Course Title Hours

First Year
Fall Semester
ENG 101 Academic Writing and Research 4
GEP Mathematical Sciences (p. 1428) 3
GEP Natural Sciences (p. 1429) 4
GEP Social Sciences (p. 1430) 3
GEP Health and Exercise Studies (p. 1422) 1

Hours 15

Spring Semester
GEP Mathematical Sciences (p. 1428) 3
Natural Science 4
GEP Social Sciences (p. 1430) 3
Free Elective 3
GEP Health and Exercise Studies (p. 1422) 1

Hours 14

Second Year
Fall Semester
Calculus 3
GEP Natural Sciences (p. 1429) 4
Literature 3
Philosophy 3
Free Elective 3

Hours 16

Spring Semester
Science Elective 4
Arts & Letters 3
History 3
IDS-SD Foundation Course 3
GEP Social Sciences (p. 1430) 3

Hours 16

Third Year
Fall Semester
Advanced Writing & Speaking 3
Free Electives 3
GEP Interdisciplinary Perspectives (p. 1426) 3
IDS-SD Concentration 3
IDS-SD Concentration 3

Hours 15

Spring Semester
GEP Additional Breadth (p. 1417) (Mathematical Sciences/ Natural Sciences/Engineering) 3
IDS-SD Concentration 3
IDS-SD Concentration 3
Advanced Science/Technology Option 3
Advanced Science/Technology Option 3

Hours 15

Fourth Year
Fall Semester
Advanced Science/Technology Option 3
Advanced Science/Technology Option 3
IDS-SD Concentration 3
IDS-SD Concentration 3
Free Electives 3

Hours 15

Spring Semester
IDS 490 Interdisciplinary Methods and Issues 3
Advanced Science/Technology Option 3
IDS-SD Concentration 3
GEP Interdisciplinary Perspectives (p. 1426) 2
Free Electives 3

Hours 14

Total Hours 120

Interdisciplinary Studies (BS)

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/)

The Interdisciplinary Studies (IDS) Self-Design B.A. or B.S. options exist to allow undergraduate students to design a major in an area of academic interest that crosses disciplinary boundaries and creates a unique educational experience.

Admission to the Self-Design Major program is by application only. The first step for the student who wishes to enter the program is to identify a faculty sponsor/mentor. This sponsor will assist the student to develop an academically sound major in a chosen interdisciplinary area. If the student is not able to identify a faculty sponsor, Dr. Sharon Setzer (sharon_setzer@ncsu.edu), Coordinator for the Self-Design Major program, can help students identify an appropriate faculty sponsor.

Toward the end of your coursework, you will complete a capstone course requiring you to use skills and knowledge obtained during the degree to design and implement a service-learning experience to benefit an organization in the community. Please see the Self-Design FAQ (https://...
Plan Requirements

1. C- or better
International Studies Program

Faculty
Director
Seth Murray, Teaching Associate Professor

Core Faculty
Shea C. McManus, Assistant Professor, Anthropology
Raja Abillama, Lecturer
Nora Haenn, Associate Professor, Anthropology
Carol Ann Lewald, Teaching Assistant Professor
Haddy M. Njie, Teaching Assistant Professor

Plans

- International Studies (BA): Africa Concentration (p. 1031)
- International Studies (BA): East and Southeast Asia Concentration (p. 1040)
- International Studies (BA): Europe Concentration (p. 1049)
- International Studies (BA): Global Cultural Studies Concentration (p. 1059)
- International Studies (BA): Global Relations Concentration (p. 1069)
- International Studies (BA): Global Sustainability and Development Concentration (p. 1079)
- International Studies (BA): Latin America Concentration (p. 1088)
- International Studies (BA): South Asia and Middle East Concentration (p. 1097)
- International Studies (Minor) (p. 1106)

International Studies (BA): Africa Concentration

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.orp.ncsu.edu/pgas/)

The International Studies curriculum is designed to educate students within a global context. The program of study requires students to integrate theoretical knowledge about broad global processes and methods used to study them with in-depth examination of a particular world region or major theme in international studies. The curriculum is designed to expose students to a variety of disciplinary approaches. It prepares students to pursue advanced studies in diverse academic fields, and for careers in global corporations, international organizations, and in the government or non-profit sectors.

Plan Requirements

methods used to study them with in-depth examination of a particular world region or major theme in international studies. The curriculum is designed to expose students to a variety of disciplinary approaches. It prepares students to pursue advanced studies in diverse academic fields, and for careers in global corporations, international organizations, and in the government or non-profit sectors.

**International Studies (BA): East and Southeast Asia Concentration**

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.orp.ncsu.edu/pgas/)

The International Studies curriculum is designed to educate students within a global context. The program of study requires students to integrate theoretical knowledge about broad global processes and methods used to study them with in-depth examination of a particular area of study in East and Southeast Asia.

---

^1 C- or better

^2 Although some courses are listed in more than one category, no course may satisfy more than one requirement. IS majors may take no more than four 200 level courses in their departmental requirements.

^3 Study Abroad: International major students are required to complete six (6) credit hours of study abroad coursework. Prior to enrolling in a study abroad program students are required to consult with their International Studies advisor in order to ascertain that the courses they plan on taking overseas may be transferred for credit to the NC State and may count toward the major and/or the GE requirements.

^4 Major Residency Requirements – Minimum of 15 hours of international studies at NC State.

^5 Major Grade Point Average (GPA) Requirements- A 2.0 major and cumulative GPA is required for graduation. All major courses must receive a grade of C- or better.

- **Study Abroad:** International major students are required to complete six (6) credit hours of study abroad coursework. Prior to enrolling in a study abroad program students are required to consult with their International Studies advisor in order to ascertain that the courses they plan on taking overseas may be transferred for credit to the NC State and may count toward the major and/or the GE requirements.

- **Major Residency Requirements** – Minimum of 15 hours of international studies at NC State.

- **Major Grade Point Average (GPA) Requirements** – A 2.0 major and cumulative gpa is required for graduation. All major courses must receive a grade of C- or better.

### International Studies (BA): Europe Concentration

To see more about what you will learn in this program, visit the Learning Outcomes website [here](https://apps.oirp.ncsu.edu/pgas/)! The International Studies curriculum is designed to educate students within a global context. The program of study requires students to integrate theoretical knowledge about broad global processes and methods used to study them with in-depth examination of a particular world region or major theme in international studies. The curriculum is designed to expose students to a variety of disciplinary approaches. It prepares students to pursue advanced studies in diverse academic fields, and for careers in global corporations, international organizations, and in the government or non-profit sectors.

| History II                                     | 3     |
The International Studies curriculum is designed to educate students within a global context. The program of study requires students to integrate theoretical knowledge about broad global processes and methods used to study them with in-depth examination of a particular world region or major theme in international studies. The curriculum is designed to expose students to a variety of disciplinary approaches. It prepares students to pursue advanced studies in diverse academic fields, and for careers in global corporations, international organizations, and in the government or non-profit sectors.

### Additional Social Science

A grade of C- or higher is required.

**Students should consult their academic advisors to determine which courses fill this requirement.**

---

1. C- or better
2. Although some courses are listed in more than one category, no course may satisfy more than one requirement. IS majors may take no more than four 200 level courses in their departmental requirements.

- **Study Abroad**: International major students are required to complete six (6) credit hours of study abroad coursework. Prior to enrolling in a study abroad program students are required to consult with their International Studies advisor in order to ascertain that the courses they plan on taking overseas may be transferred for credit to the NC State and may count toward the major and/or the GE requirements.

- **Major Residency Requirements** – Minimum of 15 hours of international studies at NC State.

- **Major Grade Point Average (GPA) Requirements** - A 2.0 major and cumulative GPA is required for graduation. All major courses must receive a grade of C- or better.

**Multidisciplinary**
International Studies (BA): Global Relations Concentration

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/).

The International Studies curriculum is designed to educate students within a global context. The program of study requires students to integrate theoretical knowledge about broad global processes and methods used to study them with in-depth examination of a particular world region or major theme in international studies. The curriculum is designed to expose students to a variety of disciplinary approaches. It prepares students to pursue advanced studies in diverse academic fields, and for careers in global corporations, international organizations, and in the government or non-profit sectors.

**Plan Requirements**

**International Studies (BA): Global Relations: 120 Total Units**

¹ C- or better

- Although some courses are listed in more than one category, no course may satisfy more than one requirement. IS majors may take no more than four 200 level courses in their departmental requirements.

- **Study Abroad**: International major students are required to complete six (6) credit hours of study abroad coursework. Prior to enrolling in a study abroad program students are required to consult with their International Studies advisor in order to ascertain that the courses they plan on taking overseas may be transferred for credit to the NC State and may count toward the major and/or the GE requirements.

- **Major Residency Requirements** – Minimum of 15 hours of international studies at NC State.

- **Major Grade Point Average (GPA) Requirements** - A 2.0 major and cumulative GPA is required for graduation. All major courses must receive a grade of C- or better.

1 C- or better

Although some courses are listed in more than one category, no course may satisfy more than one requirement. IS majors may take no more than four 200 level courses in their departmental requirements.
International Studies (BA): Global Sustainability and Development Concentration

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.orp.ncsu.edu/pgas/).

The International Studies curriculum is designed to educate students within a global context. The program of study requires students to integrate theoretical knowledge about broad global processes and methods used to study them with in-depth examination of a particular world region or major theme in international studies. The curriculum is designed to expose students to a variety of disciplinary approaches. It prepares students to pursue advanced studies in diverse academic fields, and for careers in global corporations, international organizations, and in the government or non-profit sectors.

**Multidisciplinary**
International Studies (BA): Latin America Concentration

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/).

The International Studies curriculum is designed to educate students within a global context. The program of study requires students to integrate theoretical knowledge about broad global processes and methods used to study them with in-depth examination of a particular world region or major theme in international studies. The curriculum is designed to expose students to a variety of disciplinary approaches. It prepares students to pursue advanced studies in diverse academic fields, and for careers in global corporations, international organizations, and in the government or non-profit sectors.

Plan Requirements

**Free Electives**

- Free Electives (12 Hr S/U Lmt) | 2          | 30    |

Total Hours 120

---

1. C- or better
2. Although some courses are listed in more than one category, no course may satisfy more than one requirement. IS majors may take no more than four 200 level courses in their departmental requirements.

- **Study Abroad**: International major students are required to complete six (6) credit hours of study abroad coursework. Prior to enrolling in a study abroad program, students are required to consult with their International Studies advisor in order to ascertain that the courses they plan on taking overseas may be transferred for credit to NC State and may count toward the major and/or the GE requirements.

- **Major Residency Requirements** – Minimum of 15 hours of international studies at NC State.

- **Major Grade Point Average (GPA) Requirements** – A 2.0 major and cumulative GPA is required for graduation. All major courses must receive a grade of C- or better.

1. C- or better

Although some courses are listed in more than one category, no course may satisfy more than one requirement. IS majors may take no more than four 200 level courses in their departmental requirements.

**Study Abroad:** International major students are required to complete six (6) credit hours of study abroad coursework. Prior to enrolling in a study abroad program students are required to consult with their International Studies advisor to ascertain that the courses they plan on taking overseas may be transferred for credit to the NC State and may count toward the major and/or the GE requirements.

**Major Residency Requirements** – Minimum of 15 hours of international studies at NC State.

**Major Grade Point Average (GPA) Requirements** - A 2.0 major and cumulative GPA is required for graduation. All major courses must receive a grade of C- or better.

### International Studies (BA): South Asia and Middle East Concentration

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/)

The International Studies curriculum is designed to educate students within a global context. The program of study requires students to integrate theoretical knowledge about broad global processes and methods used to study them with in-depth examination of a particular world region or major theme in international studies. The curriculum is designed to expose students to a variety of disciplinary approaches. It prepares students to pursue advanced studies in diverse academic fields, and for careers in global corporations, international organizations, and in the government or non-profit sectors.

### Plan Requirements
