Biomanufacturing (Certificate) (For Post-Baccalaureate Students)

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/)

The Certificate in Biomanufacturing provides graduates with the knowledge base and hands-on skills that will prepare them to quickly contribute to a cGMP biomanufacturing operation in significant ways and should reduce the time needed for on-the-job training in those operations.

Academic Structure
Term Effective: 1/2009
Plan Code: 32BTECCTU
CIP Code: 26.1201
Description: Undergraduate Certificate in Biomanufacturing
Offered: On-campus format

Plan Requirements
Prerequisite: In order to enroll in the first course in the program, applicants must have earned a bachelor’s level degree, and have completed CH 223 Organic Chemistry II (or equivalent) and either BIO 183 Introductory Biology: Cellular and Molecular Biology (prior to Fall 2007, numbered as BIO 181 Introductory Biology: Ecology, Evolution, and Biodiversity). Interested graduates should contact the BTEC Office for Student Coordination at 919-513-2000 for information and application materials.

Requirements for the Post-Baccalaureate Undergraduate Certificate in Biomanufacturing include a minimum of 13 credit hours as specified below. All courses must be completed with a grade of ‘C-‘ or higher:
