

GEP Visual and Performing Arts

Requirement

The Visual and Performing Arts GEP category is part of the Additional Breadth Requirement (<http://oucc.dasa.ncsu.edu/additional-breadth/>)

- A total of three credit hours in the Additional Breadth category must be selected from the university approved GEP course lists grouped as "Humanities/Social Sciences/Visual and Performing Arts" or the "Mathematics/Natural Sciences/Engineering".
- Special Note: If a student changes a General Education course except for HES courses from a letter grade to credit-only (S/U), then the course will not satisfy the GEP requirements. Consult your academic advisor if you have questions.

Double-counting

- A course taken to satisfy this requirement may also satisfy the Global Knowledge or U.S. Diversity co-requisite if the course also exists on either university approved GEP co-requisite course list.
- A course required in the Major or taken to fulfill another GEP category cannot be double-counted to fulfill the Additional Breadth requirement even if the course appears on more than one GEP course list. An additional course must be taken.

Rationale

The Visual and Performing Arts constitute a separate, unique, and independent mode of inquiry distinct from both the Humanities and Social Sciences and the Science, Technology, Engineering, and Mathematics disciplines. Being conversant in the symbolic languages of the Arts is as important as familiarity with other modes of inquiry. Many of the most profound expressions of meaning and value are embodied in the arts, and developing sensitivity and responsiveness to these through visual and performing arts courses encourages students' aesthetic sensitivities, critical judgment, and creativity. Courses in the arts also provide students with an understanding of the cultural and historical dimensions of artistic expression.

Category Objectives

Each course in the Visual and Performing Arts category will provide instruction and guidance that helps students to:

1. deepen their understanding of aesthetic, cultural, and historical dimensions of artistic traditions; and
2. strengthen their ability to interpret and make critical judgments about the arts through the analysis of structure, form, and style of specific works; and
3. strengthen their ability to create, recreate, or evaluate art based upon techniques and standards appropriate to the genre.
