Technical and Scientific Communication (Minor)

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas)!

A minor in Technical and Scientific Communication is available from the English Department for N.C. State students, except English majors in the Language, Writing and Rhetoric Concentration (16ENGLBA 16ENGLLWR), who are interested in supplementing their studies in technical, scientific, or other academic fields with strong writing and communication skills. Students minoring in Technical and Scientific Communication will be introduced to numerous genres including internal and external documents such as proposals, reports, science writing, users guides, reference manuals, and online documentation. Critical perspectives towards the role of communication in the creation of scientific and technical knowledge will be examined. The minor may lead to career opportunities in technical and scientific writing and communication. No courses for the minor may be taken for S/U credit.

Admissions and Certification

Students interested in declaring a minor in Technical and Scientific Communication should contact the minor coordinator listed below. The minor must be completed no later than the semester in which the student expects to graduate from his or her degree program.
