

# Political Science (BS)

To see more about what you will learn in this program, visit the Learning Outcomes website (<https://apps.oirp.ncsu.edu/pgas/>)!

Major requirements are 27 hours of political science coursework coupled with 15 hours of course work in advance sciences and technology. The Political Science course work includes at least 6 hours in American politics/or public policy and administration; 6 hours in international affairs or comparative politics; three hours in political theory, and three hours in Political Science methods. At least 18 hours of coursework must be at the 300 level or higher. At least 6 hours of coursework must be at the 400 or 500 level, including one course that is designated as a senior seminar.

Every student will develop their 15 hour program of studies in the natural sciences or technology field in conjunction with a Political Science advisor to ensure it complements their political science studies. Grades of C- or better for courses applied towards the major with a minimum GPA of 2.0 for all political science requirements for the Bachelor of Science curriculum, see the Political Science website (<https://spia.chass.ncsu.edu/undergraduate/political-science/>).

Students who complete the Bachelor of Science degree in Political Science are particularly well prepared for careers where expertise in the natural sciences and/or technology is combined with knowledge of issues of public policy and politics.

## Career Opportunities

A degree in political science is excellent preparation for a number of careers and graduate opportunities. Political science majors study critical issues surrounding such things as international security, public policy,

and government practices. They develop real-world skills such as solving problems logically and systematically, working with others in vertically and horizontally organized arrangements, expressing a position and defending it with corroborating evidence, and writing clear and correct prose. They also develop citizenship and leadership competencies that include the personal obligation to participate in public life. Consequently, political science majors are well-positioned for careers in teaching, the legal profession, criminal justice agencies, state and local government, urban planning, the federal bureaucracy, journalism or in any of the organizations that seek to monitor political processes or to influence the content of public policy. Private firms also seek managers and public affairs specialists who have a knowledge of the functioning of the political system and of politics in general.
