

African American Cultural Center

The work of the African American Cultural Center is to promote awareness of and appreciation for Black, African American, and other African descent experiences through programs and events that support and enhance the academic experience and strengthens cultural competence for NC State and surrounding communities. Students, staff, faculty, and visitors are welcome to visit our center which includes an Art Gallery and Library in Witherspoon Student Center, the first building on NC State's campus named for an African American, Dr. Augustus M. Witherspoon.
