Management Innovation Entrepreneurship (MIE)

MIE 201 Introduction to Business Processes (3 credit hours)
Cross-functional treatment of major activities of business, such as product design, distribution, production, and marketing. Description of specific tasks, via lectures and case studies, in support of major business activities. Interactions among various functional areas of business.

GEP Interdisciplinary Perspectives
Typically offered in Fall and Spring

MIE 209 Survey of Entrepreneurship (3 credit hours)
The course introduces non-Poole students to entrepreneurship, both its history and contemporary applications. This course will provide a base upon which students can become informed about the competencies that entrepreneurs need to develop, how entrepreneurs approach identifying, exploring, and implementing ideas, as well as the career path of entrepreneurs both pre- and post-graduation.

MIE 295 Special Topics in MIE (1-6 credit hours)
Presentation of material at the 200-level not normally available in regular course offerings, or offering of new courses on a trial basis. Course may be taken multiple times only if topic is different.

Typically offered in Fall, Spring, and Summer

MIE 305 Legal and Regulatory Environment (3 credit hours)
Introduction to fundamental subfields, rules, and concepts of law that are regularly significant to business operations. Emphasis on the law of contracts, torts, property and intellectual property rights, business organizations, and agency. Includes principals of constitutional, administrative and criminal law in a business context, and issues of ethics, fiduciary duty, civil procedure and legal risk management generally. Credit is not allowed for both BUS 305 and MIE 305.

Typically offered in Fall, Spring, and Summer

MIE 306 Managing Ethics in Organizations (3 credit hours)
Management practices to define, communicate, and implement ethical conduct in business organizations. Normative and applied analysis of current ethical dilemmas of corporations in free markets, techniques for effective management of corporate social responsibility, and formulation and implementation of ethics management programs. College of Management majors only.

Prerequisite: MIE 201
Typically offered in Fall and Spring

MIE 309 Entrepreneurship Skills for Non-Majors (3 credit hours)
The course introduces non-Poole students to the contemporary entrepreneurship world, including essential entrepreneurship skills, principles of marketing, accounting, economics, finance, market research, opportunity identification and exploration, and opportunity implementation. This course will provide foundational concepts in the above areas and will help students to develop needed skills related to budgeting and finance, applications of technology, effective communications, leadership and teamwork and risk assessment.

GEP Interdisciplinary Perspectives
Typically offered in Fall and Spring

MIE 310 Introduction to Entrepreneurship (3 credit hours)
Introduction to planning, formation, and management of entrepreneurial ventures. Fundamental business concepts and managerial skills applied to entrepreneurial ventures. Course projects support experiential learning of critical skills. Some individual off-campus travel is required.

Typically offered in Fall, Spring, and Summer

MIE 330 Human Resource Management (3 credit hours)
The systematic principles for managing the human resource component of organizations. Topics include: motivation, group dynamics, team development, ethics, communications, organizational politics, leadership, power, organizational development, organizational design and structure. Current managerial issues include total quality management and technology management.

Prerequisite: 9 hrs. of social science or 6 hours of social science plus MIE 201
Typically offered in Spring only
This course is offered alternate years

MIE 410 Business Opportunity Analysis (3 credit hours)
Issues and management processes related to the identification of new business opportunities with emphasis on commercializing new technologies. Students will analyze and develop individual plans for commercialization of a new technology or other innovation. New venture formation is the primary focus, but the processes and skills students develop are relevant to new product introductions by existing firms.

Prerequisite: MIE 310
Typically offered in Fall, Spring, and Summer

MIE 411 Managing the Growth Venture (3 credit hours)
Managing a growth venture with emphasis on entrepreneurial planning in the dynamic context of rapidly growing ventures and the development of managerial skills necessary for successful leadership in high growth ventures. Fundamental concepts, issues and skills are taught through an integrated combination of readings, lectures, discussions, cases analyses, and applied project with a local venture. Students need to provide their own transportation to off-campus sites.

Prerequisite: MIE 310
Typically offered in Spring only
This course is offered alternate years
MIE 412 Finance and Accounting for Entrepreneurs (3 credit hours)
Financial planning for new ventures including financial reporting conventions and projection of critical financial amounts for new ventures. Introduction to fundamental accounting and finance concepts applied in the context of entrepreneurial ventures. Topics include projection of revenues, expenses, capital expenditures, cash flows, and balance sheet amounts; and the creation of pro-forma financial statements. Individual student projects integrate financial projections and pro-forma financial statements with the preparation of a complete business plan. Some individual off-campus travel is required.
Prerequisite: MIE 410
Typically offered in Fall and Spring

MIE 413 New Venture Planning (3 credit hours)
Developing the business plan for a new venture and the entrepreneurial process of executing the first phases of new venture creation. Topics include idea conception, entrepreneurship, business planning, market research, entrepreneurial opportunities and strategies. Emphasis is placed on high growth business opportunities. The final deliverable is a complete business plan for a high growth venture and formal presentation of the plan to mock investors. Some individual off-campus travel is required.
Prerequisite: MIE 410
Typically offered in Fall and Spring

MIE 416 The Legal Dynamics of Entrepreneurship (3 credit hours)
Overview of important legal and regulatory issues facing entrepreneurs and start-up entities including legal structure of the organization, intellectual property protection, human resource requirements, product liability, and risk management.
Prerequisite: MIE 310
Typically offered in Spring only

MIE 418 Social Entrepreneurship Practicum (3 credit hours)
Application of entrepreneurship skills and knowledge to plan a social entrepreneurial venture envisioned by the student. This course is a capstone course for the Minor in Entrepreneurship and the Concentration in Entrepreneurship. The deliverables include an evaluation of the venture and a formal presentation including a summary of work completed and the implications of the work for each student’s project. Students need to provide their own transportation to off-campus sites.
Prerequisite: MIE 410
Typically offered in Fall and Spring

MIE 419 Entrepreneurship Practicum (3 credit hours)
Application of entrepreneurship skills and knowledge to plan an entrepreneurial venture envisioned by the student. The final deliverable includes an evaluation of the project and a formal presentation that includes a summary of the work completed and the implications of that work each student's project. Some individual off-campus travel is required.
Prerequisite: MIE 410
Typically offered in Fall and Spring

MIE 432 Employee Relations (3 credit hours)
