

Livestock and Poultry Management (AAS)

The Associate of Applied Science (AAS) degree in Livestock and Poultry Management is designed for students with an interest in working with various livestock (dairy, beef, and swine) and poultry (broiler, turkey, and commercial egg) species after graduation.

This program prepare graduates for entry-level management positions in live production, technical consultation or with allied industries. The curriculum includes technical courses such as beef, swine, and poultry management courses; agricultural business courses; and General Education Program (GEP) courses which include English, math, humanities, and social sciences.

Career possibilities include:

- Poultry Management
- Livestock Management
- Feed and Equipment Sales
