

Landscape Architecture (Minor)

The Minor in Landscape Architecture will provide a basic understanding of the nature of the profession of Landscape Architecture. Knowledge of Landscape Architecture history and theory provides a useful addition to a major in any of the University disciplines.

The Minor in Landscape Architecture is designed to:

- Provide a general background in the discipline with regard to landscape architecture research, development and design for students, whose primary professional practice will be in another discipline.
- Clarify the role of the profession of Landscape Architecture.
- Define how the profession of Landscape Architecture and all related professional disciplines contribute to the successful practice of design.

Admissions

Entrance to the minor is by application, grade review and permission of the Department Chair. A GPA of 2.75 is required. To be admitted to the program, a student must have a GPA of at least 2.0. Application for admission to any University minor program is now available via MyPack Portal. Admission will be based upon the student's academic record, and in most cases no longer requires departmental review. Go to Add a Minor (<https://studentservices.ncsu.edu/your-degree/coda-home/add-a-minor/>) to apply.

Certification

The minor must be completed no later than the semester in which the student expects to graduate from his or her degree program. Paperwork for certification can be found in 223 Brooks Hall and should be completed during the registration period of the student's final semester at NC State.
