

Electrical Engineering (BS): Radio Frequency Circuits Concentration

The EE core courses provide a foundation for all EE students in electric circuits, digital logic, computer systems, programming, signals, linear systems, microelectronics, electromagnetics, teaming and communication, and the social and ethical dimensions of the practice of electrical and computer engineering.

EE offers a robust set of concentrations to guide students in their studies. All concentrations within EE share the core courses required by the major. Concentrations are offered in the following areas: Analog Circuits, Artificial Intelligence and Machine Learning, Biomedical Instrumentation, Communications and Signal Processing, Controls and Robotics, Digital Circuits, Electronic Devices, Music Technology, Optics and Photonics, Power Systems, and Radio Frequency Circuits.

Each EE concentration contains 24 hours of work. Students will take 12 hours from a prescribed list of courses that provide the necessary depth and background to pursue a career in the area. An additional 12 hours from a broader list of "open" electives are also required as part of the concentration, and these are meant to reinforce and add breadth to that area. There are many connections between areas and too many to explicitly list, and therefore, the open category gives students the freedom to choose courses that either broaden or deepen their expertise as they determine appropriate in consultation with their advisor. Furthermore, the open elective list intentionally allows students to take courses outside of ECE, such as other engineering, math, or science courses.

In their final year, all Electrical Engineering majors participate in a two-semester senior design course sequence. Students work in teams to solve an engineering problem identified by faculty or industrial sponsors. Over the course of two semesters, students gain experience designing, documenting, and communicating about their project to various audiences.

This curriculum leads to a Bachelor of Science in Electrical Engineering and is nationally accredited by ABET, <http://www.abet.org>.

The RF Circuits Concentration covers the fundamentals of transmission lines and antennas for wireless communications. Students further build their skills through a required radio system design course. Electives will deepen a student's knowledge of hardware design using advanced electronics and solid-state technology.

Plan Requirements

Code	Title	Hours
Major Field of Study Requirements		
Math		
MA 141	Calculus I ^{1,2}	4
MA 241	Calculus II ^{1,2}	4
MA 242	Calculus III	4
ST 371	Introduction to Probability and Distribution Theory	3
Science		

CH 101 & CH 102	Chemistry - A Molecular Science and General Chemistry Laboratory ^{1,2}	4
PY 205 & PY 206	Physics for Engineers and Scientists I and Physics for Engineers and Scientists I Laboratory ^{1,2}	4
PY 208 & PY 209	Physics for Engineers and Scientists II and Physics for Engineers and Scientists II Laboratory	4

Electrical Engineering Core

ECE 109	Introduction to Computer Systems ³	3
ECE 200	Introduction to Signals, Circuits and Systems ³	4
ECE 209	Computer Systems Programming ³	3
ECE 211	Electric Circuits ³	4
ECE 212	Fundamentals of Logic Design ³	3
ECE 220	Analytical Foundations of Electrical and Computer Engineering ³	3
ECE 301	Linear Systems	3
ECE 302	Microelectronics	4
ECE 303	Electromagnetic Fields	3
ECE 380 or ECE 381 or ECE 383	Engineering Profession for Electrical Engineers Engineering Profession for Computer Engineers Introduction to Entrepreneurship and New Product Development	1
ECE 484 or ECE 482	Electrical and Computer Engineering Senior Design I Engineering Entrepreneurship Senior Design I	3
ECE 485 or ECE 483	Electrical and Computer Engineering Senior Design II Engineering Entrepreneurship Senior Design II	3

Radio Frequency Circuits Concentration

ECE 422	Transmission Lines and Antennas for Wireless	3
ECE 424	Radio System Design	3
RF Circuits Required Electives (p. 2)		6
Open Electives (p. 2) ⁵		12

Other Major

COM 110	Public Speaking	3
ENG 331	Communication for Engineering and Technology	3

College Requirements

E 101	Introduction to Engineering & Problem Solving ³	1
E 102	Engineering in the 21st Century ³	2
E 115	Introduction to Computing Environments ³	1

Other

EC 205 or EC 201 or ARE 201 or ARE 201A	Fundamentals of Economics Principles of Microeconomics Introduction to Agricultural & Resource Economics Introduction to Agricultural & Resource Economics	3

Open Electives (p. 2) ⁵		3
GEP Requirement (http://catalog.ncsu.edu/undergraduate/gep-category-requirements/)		3
GEP Requirement (http://catalog.ncsu.edu/undergraduate/gep-category-requirements/)		3
Hours		15
Total Hours		122

¹ Courses required for Change of Degree Audit (CODA). CH 101, 102; MA 141, 241; PY 205, 206 must be completed with C or higher.

² A grade of C or higher is required.

³ A grade of C- or higher is required. E 115 requires satisfactory completion (S).

⁴ A minimum GPA of 3.5 is required to enroll in graduate-level courses.

⁵ Suggested open electives include ECE 402, ECE 403, ECE 404, ECE 422, ECE 424, ECE 426, ECE 434, ECE 541, ECE 549.

- Electronic Drafter
- Electronics Engineer
- Electronics Technician
- Engineering Professor
- Instrument Technician
- Mechanical Drafter
- Mechatronics Engineers
- Photonics Engineers
- Radio Frequency Identification Device Specialists
- Sales Engineers
- Solar Energy Systems Engineers

Learn More About Careers

NCcareers.org (<https://nccareers.org/>)

Explore North Carolina's central online resource for students, parents, educators, job seekers and career counselors looking for high quality job and career information.

Occupational Outlook Handbook (<https://www.bls.gov/ooh/>)

Browse the Occupational Outlook Handbook published by the Bureau of Labor Statistics to view state and area employment and wage statistics. You can also identify and compare similar occupations based on your interests.

Career One Stop Videos (<https://www.careeronestop.org/>)

View videos that provide career details and information on wages, employment trends, skills needed, and more for any occupation. Sponsored by the U.S. Department of Labor.

Focus 2 Career Assessment (<https://careers.dasa.ncsu.edu/explore-careers/career-assessments/>) (NC State student email address required)

This career, major and education planning system is available to current NC State students to learn about how your values, interests, competencies, and personality fit into the NC State majors and your future career. An NC State email address is required to create an account. Make an appointment with your career counselor (<https://careers.dasa.ncsu.edu/about/hours-appointments/>) to discuss the results.

Focus 2 Apply Assessment (<https://www.focus2career.com/Portal/Register.cfm?SID=1929>) (Available to prospective students)

A career assessment tool designed to support prospective students in exploring and choosing the right major and career path based on your unique personality, interests, skills and values. Get started with Focus 2 Apply and see how it can guide your journey at NC State.
