

GEP Computer Literacy/ Technology Fluency

Requirement: (integral curriculum content)

Instruction in technologies appropriate to the discipline will be included and assessed within each curriculum.

Special Note: If a student changes a General Education course except for HES courses from a letter grade to credit-only (S/U), then the course will not satisfy the GEP requirements. Consult your academic advisor if you have questions.

Rationale:

Today's graduate must achieve technology fluency appropriate to the needs of his/her discipline, including technologies for problem solving, empirical inquiry and research. Students will demonstrate critical thinking skills, analytical skills, proficiency and ethical use of the technology within the discipline, which includes responding to and readily adapting to change in those technologies.
