

# Science Communication (Minor)

The minor in Science Communication offered by the Department of Communication is available to undergraduate students interested in developing their understanding of and abilities in communication science to public audiences. It is open to students in all undergraduate majors on campus who want to deepen and broaden their knowledge of how citizens make sense of science and technology in their everyday lives. Required coursework includes 15 credit hours, including (1) an overview course that introduces major issues in contemporary debates about science communication and public engagement, (2) electives that allow students to develop further understanding of communication processes and practices, and (3) a capstone course that engages students on more advanced topics such as climate change, risk communication, environmental communication, and others.

## Admissions

Students interested in the Science Communication minor must contact the minor advisor before their junior year and/or before the completion of 90 credits toward undergraduate degree. To be admitted to the program, a student must have a GPA of at least 2.0. Application for admission to any University minor program is now available via MyPack Portal. Admission will be based upon the student's academic record, and in most cases no longer requires departmental review. Go to Add a Minor (<https://studentservices.ncsu.edu/your-degree/coda-home/add-a-minor/>) to apply.

## Certification

A University Minor Declaration Form ([https://studentservices.ncsu.edu/forms/registrar/declare\\_minor.pdf](https://studentservices.ncsu.edu/forms/registrar/declare_minor.pdf)) should be submitted to Registration and Records for inclusion of the minor on the student's official record no later than during the registration period for the student's final semester at NC State. The minor must be completed no later than the semester in which the student expects to graduate from his or her degree program. Students will receive official recognition on their transcripts for the completed minor.
