Ethics (Minor)

Description

Ethical issues arise in every field of human endeavor, so knowledge of ethics is beneficial to students regardless of their major. The Minor in Ethics is designed to expose students in a systematic way to the fundamental theories and concepts of ethics. It is a highly desirable minor because it demonstrates to employers, graduate schools, and professional schools an interest in and knowledge of ethical issues.

In addition to taking a solid core of philosophy courses focusing on ethics, students pursuing the minor may also elect to count towards it one relevant course from another department. This course will be chosen from a list of courses offered by a wide range of other departments including Anthropology, Engineering, Genetics, History, Microbiology, Political Science, and the Science, Technology, & Society Program. No courses for the minor may be taken for S/U credit.

Admissions and Certification

To be certified as having completed the minor in Ethics, students must have a minimum 2.0 grade point average across all courses used toward the minor. In both instances, students can complete the necessary forms online. The minor must be completed no later than the semester in which the student expects to graduate from their degree program. Certification should be completed no later than during the registration period for the student's final semester at NC State. Go to Add a Minor (https://studentservices.ncsu.edu/your-degree/coda-home/add-a-minor/) to apply.
