The Leadership: Cross Disciplinary Perspectives minor is a 15-hour minor that is designed for students who seek to gain greater knowledge and understanding of leadership perspectives from a variety of academic fields of study. The coursework is composed of courses grounded in theory, inquiry, and application. The student has the opportunity to select the specific courses which best fulfill his/her needs while maintaining a broad perspective on leadership across fields of study. The student in the minor may be preparing for graduate work or any field of study within the university.
