# Animal Science (BS): Industry Concentration

To see more about what you will learn in this program, visit the Learning Outcomes website (https://apps.oirp.ncsu.edu/pgas/)!

The degree of Bachelor of Science in Animal Science may be obtained by selecting one of three concentrations offered by the Department of Animal Science in the College of Agriculture and Life Sciences: Veterinary Bioscience, Science, and Industry.

The Industry concentration is designed for students who are more interested in the business or production aspects of animal science. It offers flexibility in completing Animal Science courses with business, marketing, economics, and applied science coursework. There are many opportunities to gain undergraduate research experience with an Animal Science faculty member, to participate in one of the animal-related clubs, and to engage globally by participating in one of our Animal Science Study Abroad experiences.

#### **Accelerated Graduate Opportunities**

Advanced undergraduates have the opportunity to complete the Accelerated Bachelor's/Master's degrees, which allows students to earn both the BS and the Master's of Animal Science degrees within five years. See listing of graduate degrees offered in the Graduate School (https://grad.ncsu.edu/). The Accelerated BS/DVM for Animal Science Majors (3+1 Advising Guide) is a pathway for students admitted early to a College of Veterinary Medicine to complete the BS in Animal Science degree by transferring back 12 credits after one year in vet school.

For more information about our program, visit our website (https://cals.ncsu.edu/animal-science/students/undergraduate/#bachelor-of-science).

#### Contact

#### **Department of Animal Science**

North Carolina State University Campus Box 7621 Raleigh, NC 27695-7621

#### Dr. M. Todd See

Professor and Department Head North Carolina State University Polk Hall, Box 7621 Raleigh, NC 27695-7621 919.515.2755 tsee@ncsu.edu

## **Plan Requirements**

Use of animals and animal specimens is critical to our educational program. To obtain full credit for Animal Science courses, students are required to participate in laboratory procedures involving animals and animal specimens. All activities with live animals are IACUC (Institutional Animal Care and Use Committee) approved. Many lectures also incorporate animals or animal specimens into the course.

## **Semester Sequence**

This is a sample.

Fall Semester		Hours
ALS 103	Freshman Transitions and Diversity in Agriculture & Life Sciences	1
ANS 150 & ANS 151	Introduction to Animal Science and Introduction to Animal Science Lab <sup>1</sup>	4
BIO 181	Introductory Biology: Ecology, Evolution, and Biodiversity	4
ENG 101	Academic Writing and Research 1	4

MA 107	Precalculus I 1	3
	Hours	16
Spring Semester		
CH 101	Chemistry - A Molecular Science <sup>1</sup>	3
CH 102	General Chemistry Laboratory	1
Animal Science Co	ourse (p. 4)	3
Select one of the fo	· ·	3
MA 114	Introduction to Finite Mathematics with Applications	
MA 121	Elements of Calculus	
MA 131	Calculus for Life and Management Sciences A	
BIO 183	Introductory Biology: Cellular and	4
DIO 103	Molecular Biology	7
GEP Health and E	xercise Studies (http://catalog.ncsu.edu/	1
undergraduate/gepstudies/)	o-category-requirements/gep-health-exercise-	
	Hours	15
Second Year		
Fall Semester		
ANS 205	Physiology of Domestic Animals	4
& 205 ANS 215	and Physiology of Domestic Animals  Agricultural Genetics	3
Economics Course	5	3
CH 221	Organic Chemistry I	4
& CH 222	or Introductory Organic Chemistry	
or CH 220		
Communications	Course (n. 1)	3
Communications C	ουίου (β. 1)	
	Hours	17
Spring Semester	Hours	17
Spring Semester ANS 220	Hours  Reproductive Physiology	<b>17</b>

CALS Group A,B, or C Elective (p. 6)	
Hours	14
Total Hours	120

- ANS 150 Introduction to Animal Science, MA 107 Precalculus I, ENG 101 Academic Writing and Research, and CH 101 Chemistry A Molecular Science must be completed with a grade of C-minus or higher, and the student should repeat the course in the semester following the initial attempt if less than a C-minus is earned.
- Students are encouraged to take an Ethics course as part of their Humanities, Additional Breadth, Interdisciplinary Perspectives, or Free electives.

Use of animals and animal specimens is critical to our educational program. To obtain full credit for Animal Science courses, students are required to participate in laboratory procedures involving animals and animal specimens. All activities with live animals are IACUC (Institutional Animal Care and Use Committee) approved. Many lectures also incorporate animals or animal specimens into the course.
